About

This quick guide walks you through enabling the Theming-based LMS Extensions experience within your existing Kaltura LMS Video integration.

The guide highlights the updated pages and workflows available with LMS Extensions, including My Media, Media Gallery, Media Page, Upload, and Embed and explains how to activate the required Theming features and modules.

Download the guide

The guide is available as a PDF for easy reference. You can view it online or download it to follow along while making changes in your site.
