Introduction to the Kaltura Room in webinars

Content updated: 05/13/2026

This article is designated for all users.

About

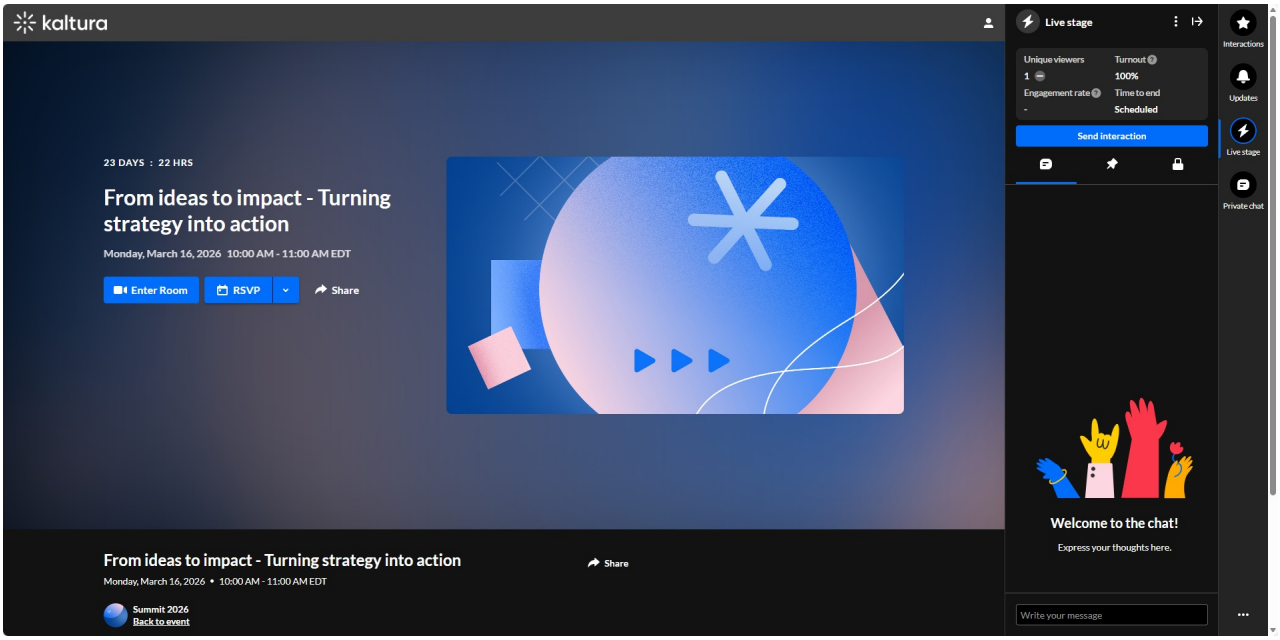

The Kaltura Room is a powerful meeting space utilized for **webinars**. The Kaltura Room brings teams together for real-time collaboration and learning. Whether for team workshops, training sessions, or organizational gatherings, the Kaltura Room helps users:

- Create impactful gatherings that keep participants actively involved through rich engagement tools like polls, quizzes, chat and reactions.
- Boost knowledge-sharing with collaborative tools like breakout rooms, and whiteboards.
- Deliver on-brand experiences with customizable branding options.
- Ensure media-rich sessions run seamlessly with storyboard planning and native video playback.

Kaltura Rooms are accessible on mobile devices through the browser, with no app required. Most features are available on mobile, including chat, raising hands, joining the stage, and participating in breakout rooms.

A few moderator features aren't available on mobile: storyboard management, screen sharing, and breakout room management. Reactions in the engagement panel aren't available on mobile for anyone. To use these moderator features, join from a desktop browser.

- Backstage coordination during receptions and breaks
- Scene management

Chat and Collaboration (C&C)

The Chat and Collaboration (C&C) panel provides real-time communication and engagement tools.

- On desktop, it appears in the **right sidebar.**
- On mobile, it appears at the **bottom of the screen**.

C&C integrates chat, polls, and collaboration tools to help moderators create interactive sessions.

Available features depend on account configuration and/or user role and may include:

- **Assistant** - Monitor real-time engagement analytics and quickly launch interaction tools (polls, Q&A, etc.).
- **Interactions** - Create and manage live polls, quizzes, surveys, word clouds, and other audience engagement activities.
- **Updates** - Send announcements and session-wide messages to keep participants informed.
- **Live Stage** - View and manage public chat, Q&A, participant lists, and the main
