### About

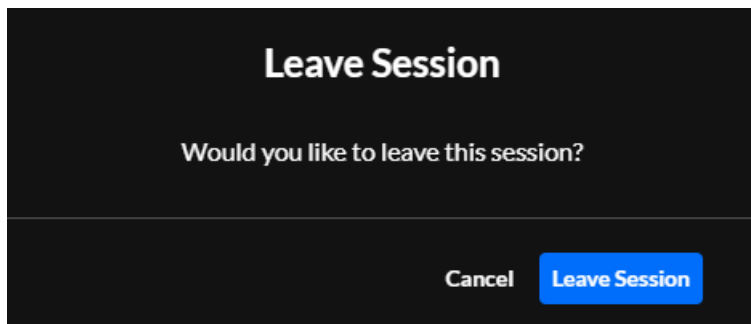

This article explains how attendees can leave a [Kaltura Room](#) session.

### Leave the session

1. In the bottom-right corner, click the **door icon**.

A confirmation message displays.

2. Click **Leave session** to exit the room.

You can also leave the session by closing the browser tab or window or simply navigating to another page.

If the session is in a **channel**, you will be redirected back to the channel.

After leaving, a confirmation screen appears. From there, you can rejoin the session by clicking **Rejoin the session**, or by returning to the session link.

## Session timeout

If the moderator leaves the room and doesn't return within **15 minutes**, the session automatically ends for all participants. You'll see a message confirming that the session has ended.
