Configure restream destinations in Content Hubs

Last Modified on 09/02/2026 10:50 am IDT

This article is designated for all users.

About

Restreaming lets you broadcast a live stream to additional streaming platforms simultaneously.

From the **Restream destinations** section in the **Streaming** tab, you can add, edit, and remove RTMP destinations for a live stream.

To send the stream to other live sessions in Content Hubs instead of external RTMP destinations, see Create and manage a master session for restreaming sessions in Content Hubs.

This feature is commonly used with external broadcast Live Studio sessions and other RTMP-based live workflows. For more information, see:

- Introduction to Live Studio in Content Hubs
- Create a Live Studio event in Content Hubs

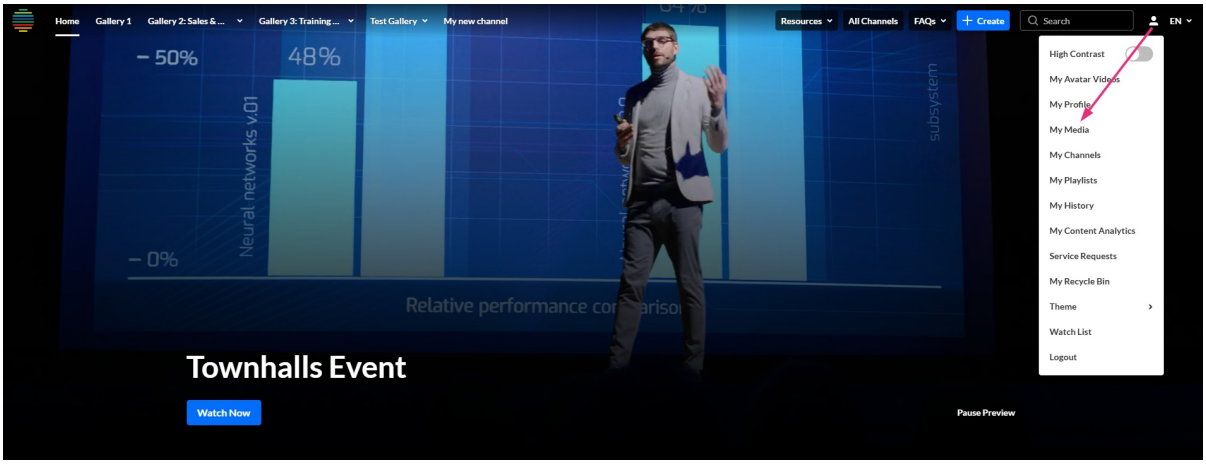

Who can use this

- Media owners
- Co-editors

Access the Streaming tab

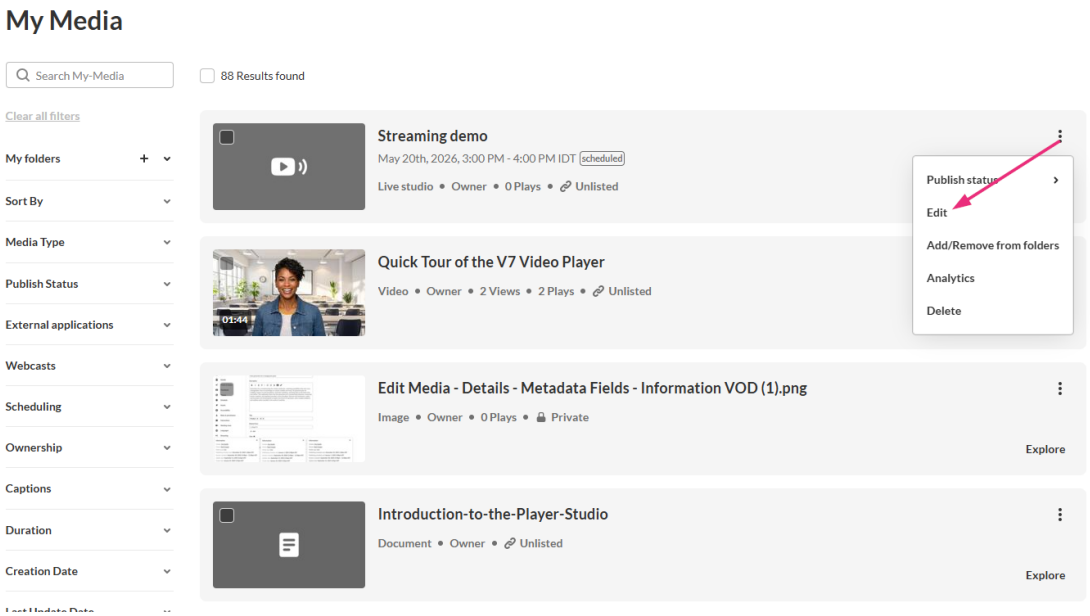

1. From the user menu, select My Media.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

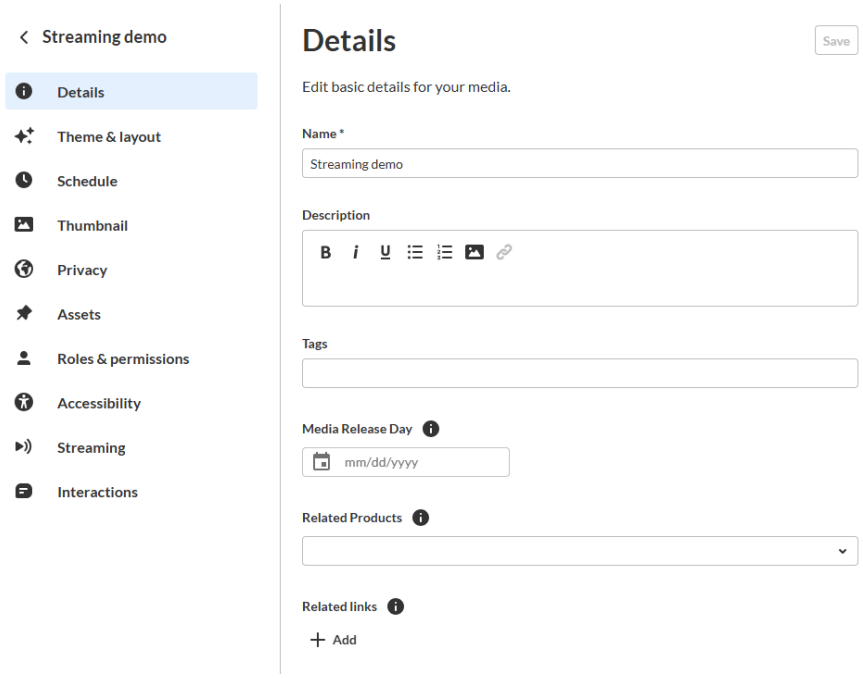

The 'My Media' page displays.

2. Click the **three dots** to the right of the desired media and select **Edit**.

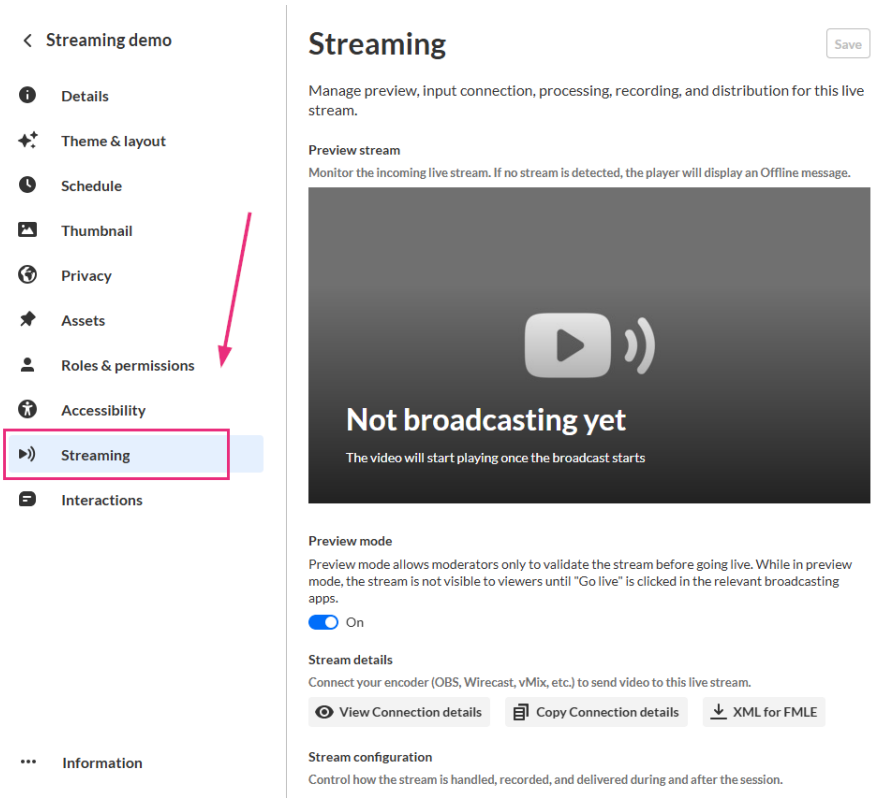

The edit page opens on the **Details** tab by default.

3. In the left navigation, click **Streaming** tab to display the Streaming page.

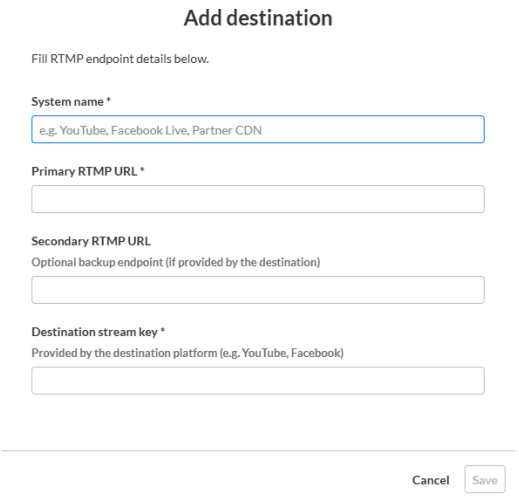

Add a restream destination

1. In the **Restream destinations** section, click +**Add destination**.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

The 'Add destination' window opens.

2. Complete the following fields:

- **System name** - Enter a unique name for the restream destination.
- **Primary RTMP URL** - Enter the primary RTMP or RTMPS endpoint URL provided by the streaming platform.
- **Secondary RTMP URL** - Optionally, enter a secondary RTMP or RTMPS endpoint URL provided by the streaming platform.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- **Destination stream key** - Enter the stream key provided by the streaming platform.

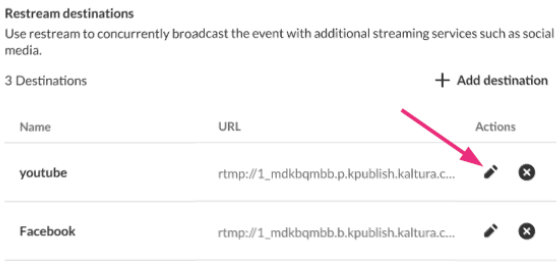

3. Click **Save**.

The destination is added to the destinations list.

When the live stream starts, the broadcast is sent to all configured restream destinations automatically.

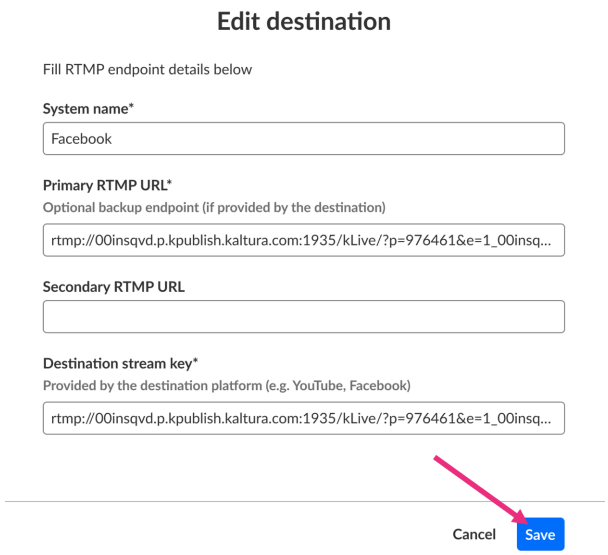

Edit a restream destination

1. In the **Restream destinations** list, click the **pencil icon** next to the desired destination.

The 'Edit destination' window opens.

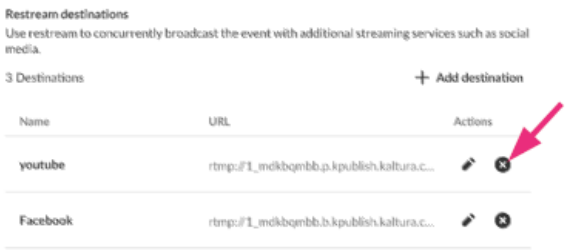

2. Update the desired fields.
3. Click **Save**.

Remove a restream destination

1. In the **Restream destinations** list, click the **X icon** next to the desired destination.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

A confirmation message displays.

2. Click **Delete** to continue.
