Add a channel to a collection in Content Hubs

Last Modified on 07/23/2026 11:09 am IDT

This article is designated for all users.

About

You can add a channel to one or more collections and manage existing collection associations from the channel's **Details** page.

Adding channels to collections helps organize related channels and makes them easier for users to discover.

This feature requires the following to be enabled:

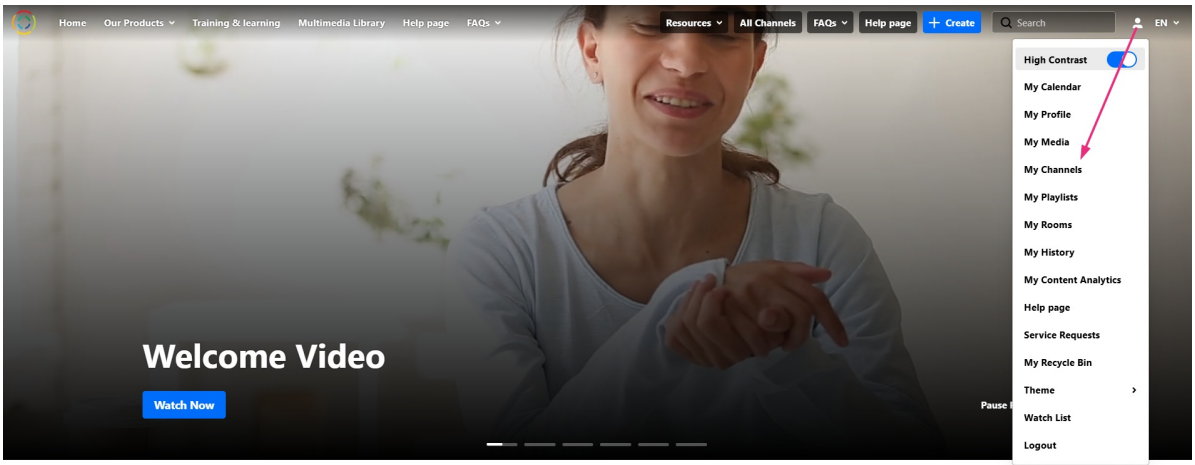

- Channelcollections module
- Theming module with the 'channeledit' feature set to 'Yes'

Who can use this

- Channel owners
- Channel managers

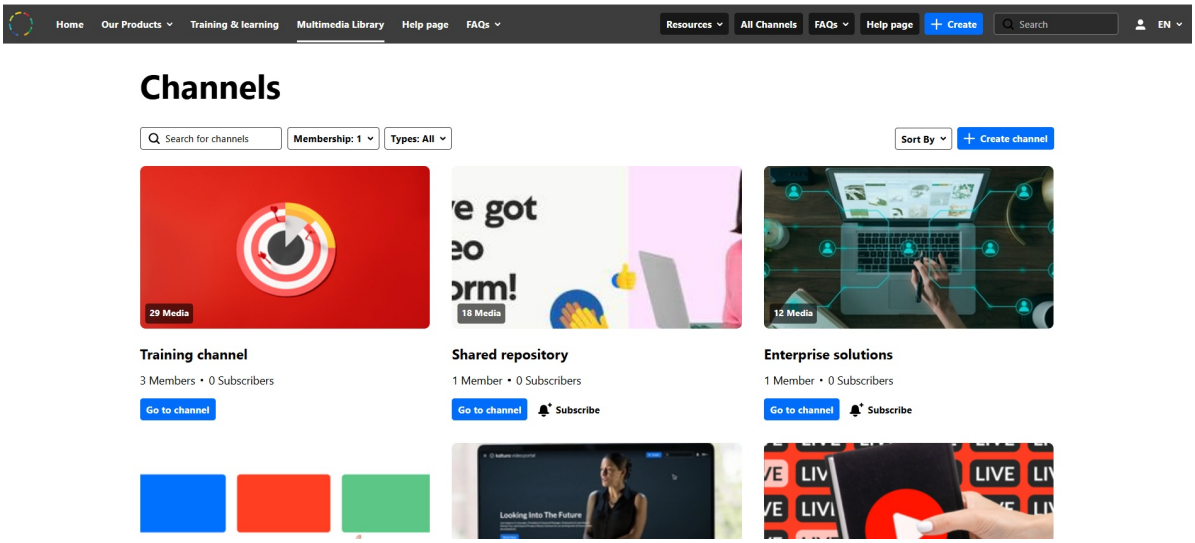

Access the Details tab

1. From the user menu, select **My Channels**.

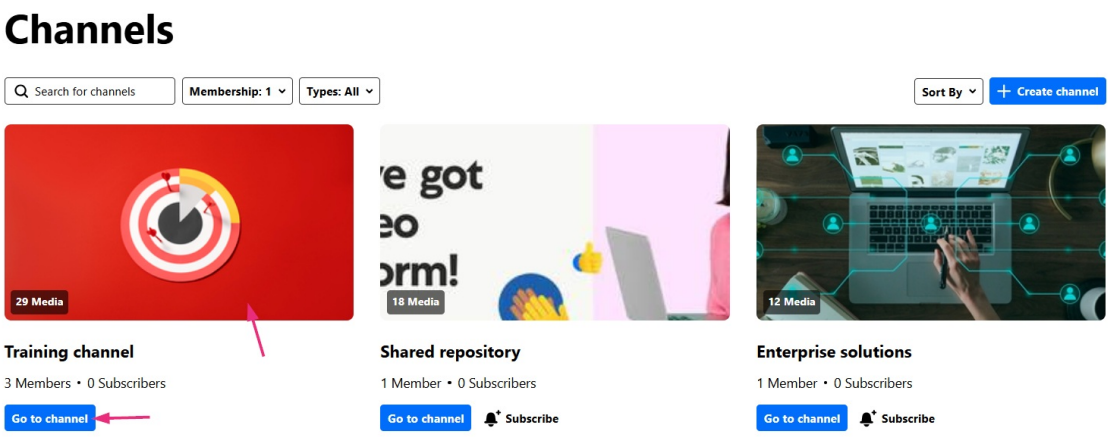

The **Channels** page displays.

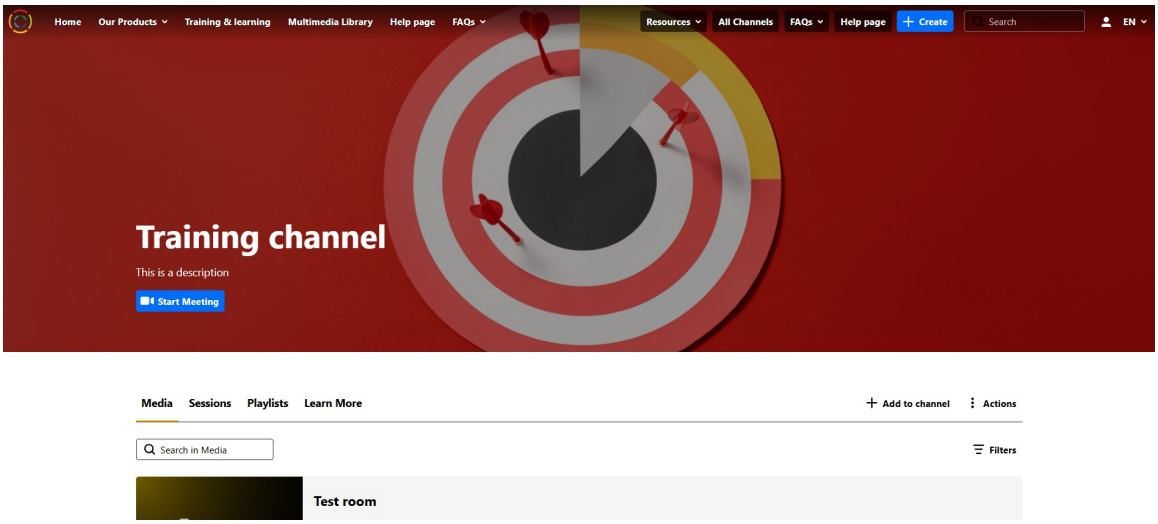

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

2. Find the channel you want to edit and click **Go to channel** or the thumbnail.

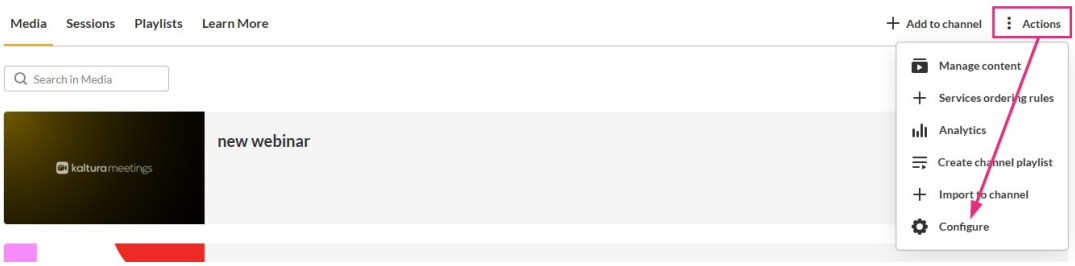

The channel page opens.

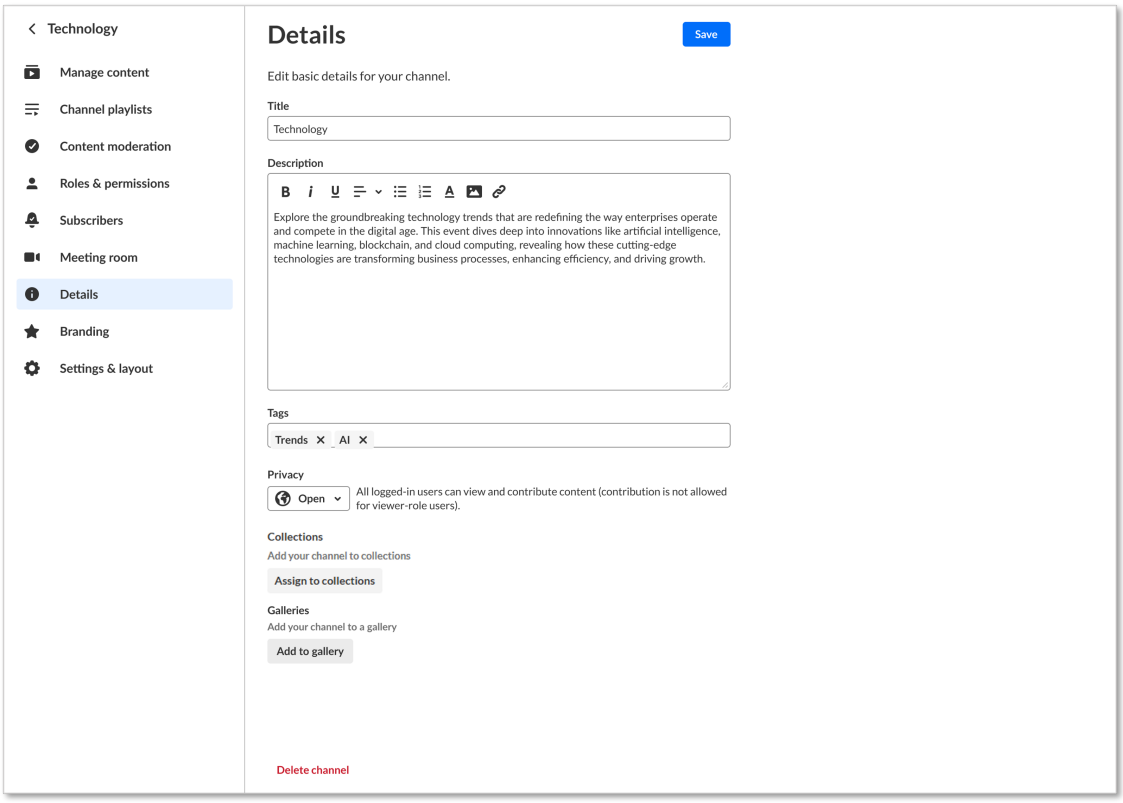

3. At the far right, click the **Actions** menu and select **Configure**.

The **Details** tab opens by default with a left-hand navigation.

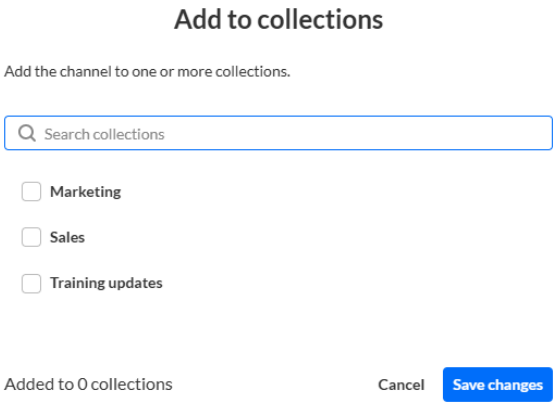

Assign a channel to a collection

1. In the **Collections** section, click **Assign to collections**.

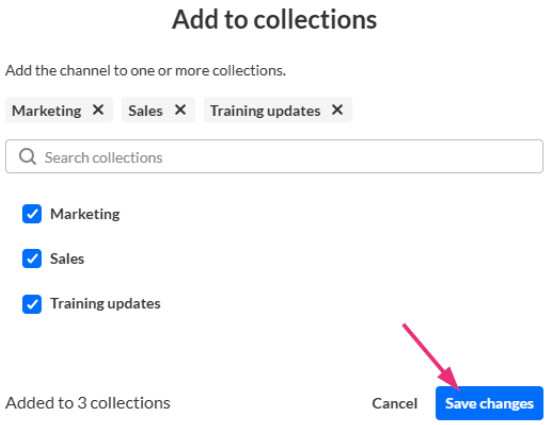

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

The 'Add to collections' window opens.

2. Select one or more collections, then click **Save changes**.

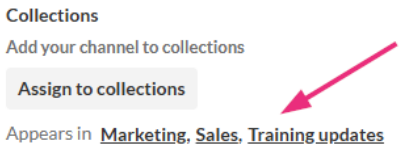

A success message displays, and the channel is added to the selected collection(s).

View assigned collections

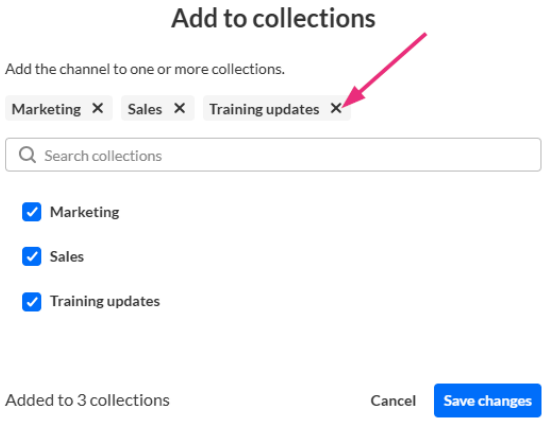

The **Appears In** field displays all collections the channel belongs to.

Remove a channel from a collection

1. In the **Collections** section, click **Assign to collections**.
   The 'Add to collections' window opens.
2. Remove the collection association by clicking the X next to the collection name or clearing the collection selection.

3. Click **Save changes**.

   The channel is removed from that collection.

Removing a channel from a collection removes the association only. The channel isn't deleted.
