## About

The steps to start creating a video quiz and open the quiz editor vary depending on the Kaltura application you're using.

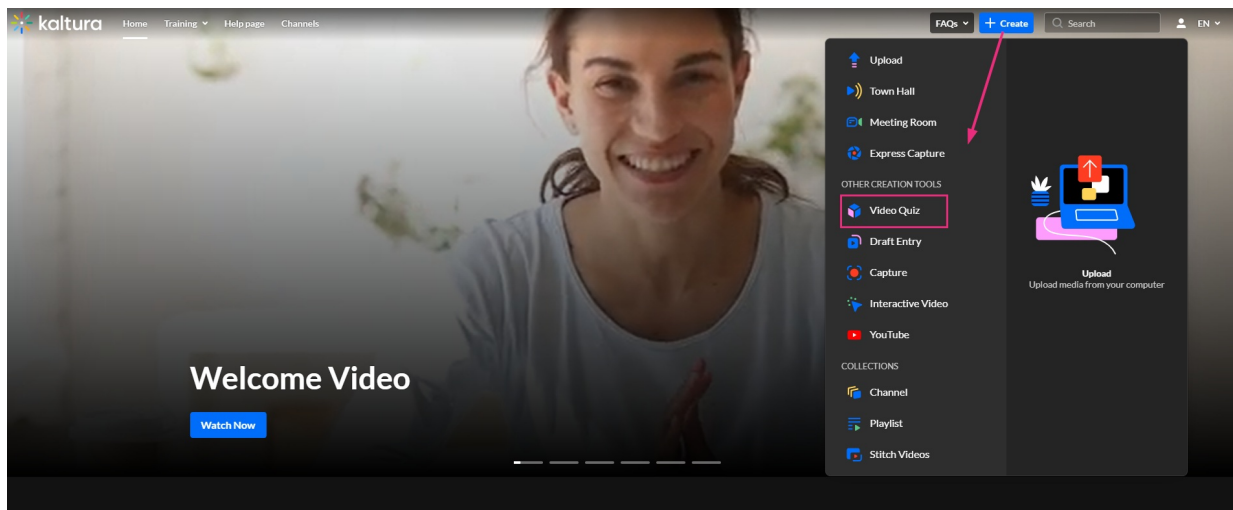

This article explains how to start creating a video quiz in Content Hubs, the legacy Video Portal, legacy LMS Video, LMS Rich Media Extensions, and the Rich Media CMS.

Once you are in the quiz editor, see [Configure quiz settings](#) to customize quiz details, scoring, and participant experience options.

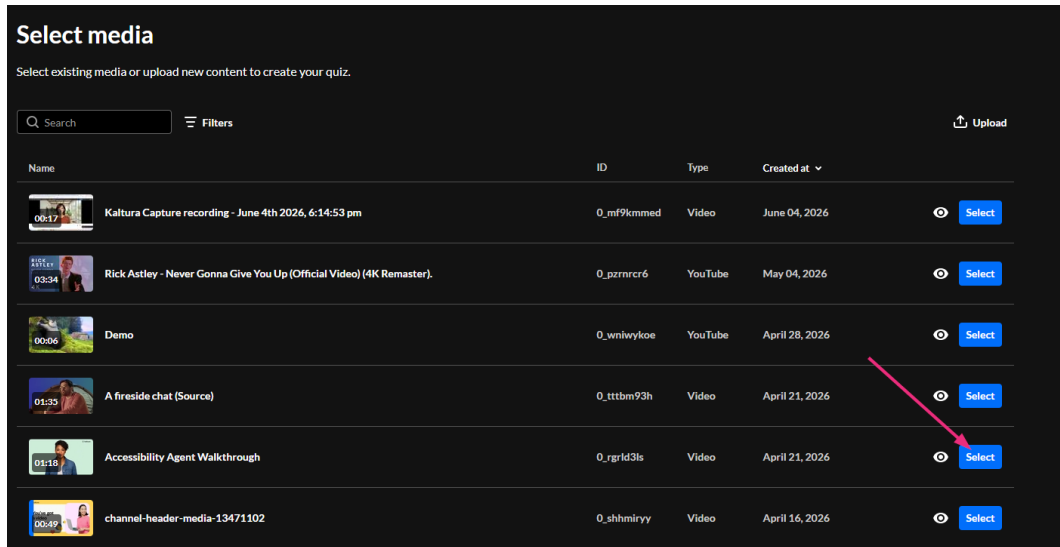

## Content Hubs

1. Click the **+Create button** and select **Video Quiz**.

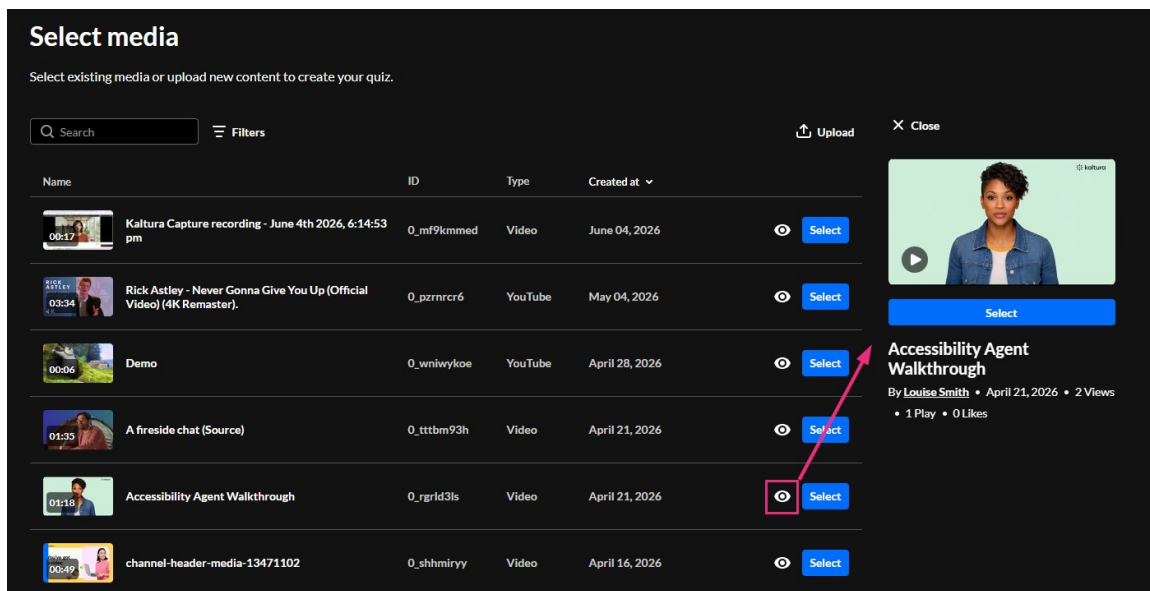

The **Select media** page displays.

2. Click **Select** next to the item you want to use for your quiz. (You can use the search field and filters to quickly find the media item you need.)

You can click the **eye icon** to preview the media - press play to watch, then click **Select** or **Close** to exit the preview panel.

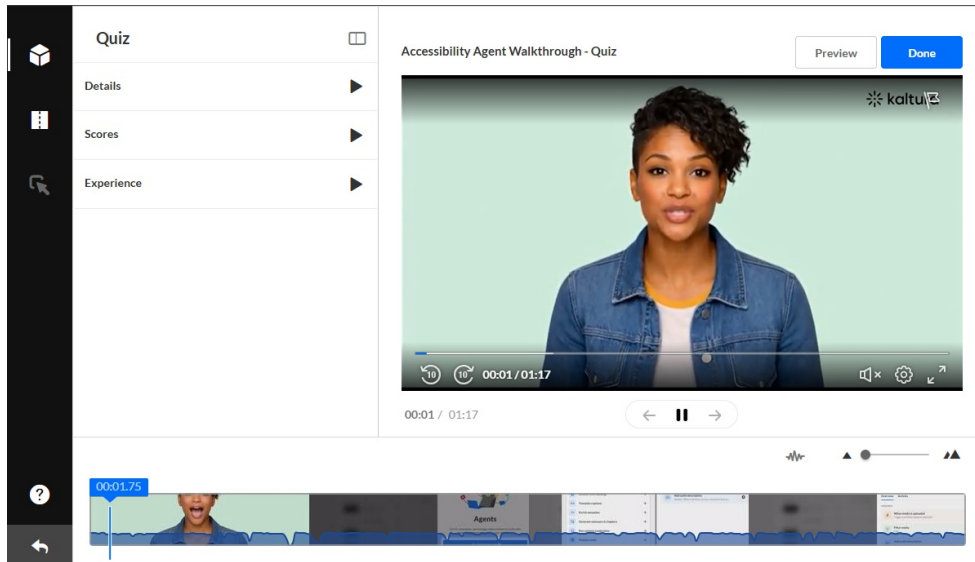

If you want to upload a new media item for the quiz, click **Upload** at the top right. See [Upload media](#) for instructions if needed.

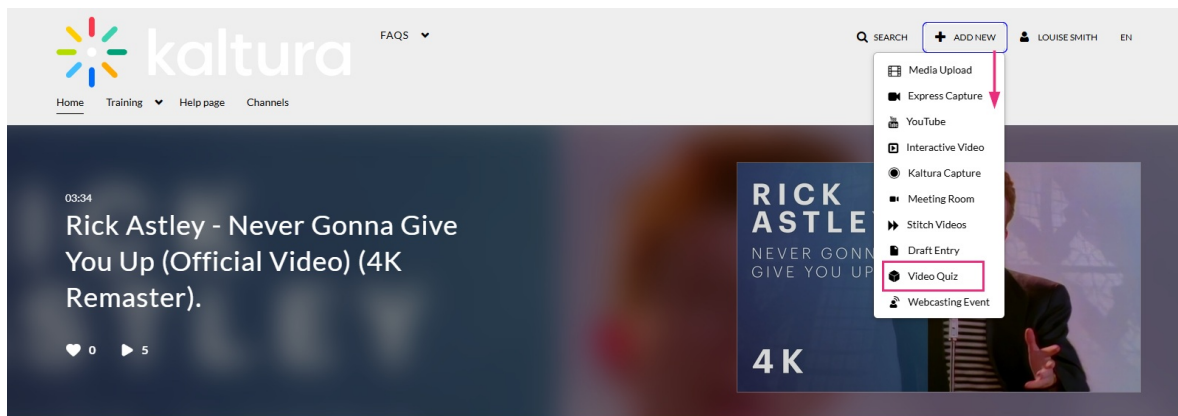

You can create or modify a quiz from VOD, audio, and YouTube entries, but not from Live entries or images.

Once you click **Select**, the quiz editor launches.
