## About

Configure advanced conversation controls including call length, talk speed, and agent movement settings.

## Navigate to the Advanced tab

Click on the Advanced tab.

The screenshot shows the Kaltura Agent Studio interface. At the top, there is a navigation bar with a 'Back' button on the left, a progress indicator '3/20 Interactions' in the center, and 'Agent studio' on the right. Below the navigation bar is a menu with tabs: 'Overview', 'Knowledge', 'Playbook', 'Experience', 'Analytics', and 'Advanced'. The 'Advanced' tab is highlighted with a red box. Below the menu, the 'Conversation' section is visible. It includes a 'Share screen' toggle switch, a 'Call length' dropdown menu set to '10 min', a 'Talk speed' slider between 'Slow' and 'Fast', and two 'Agent movement' sliders for 'Speaking movement' and 'Listening movement', both ranging from 'Subtle' to 'Expressive'.

## Call length

Use the up and down arrows to set the maximum duration (in minutes) for each conversation. Call length can be between 1-10 minutes.

### Conversation

#### Share screen

Enable screen sharing so users can discuss and review on-screen content with the agent in real time.

#### Call length

Set the maximum duration for each conversation. Call length can be between 1-10 min.
