About

The **Interactions** tab lets you control which interaction features are available for supported live sessions. From here, you can enable or disable group chat, comments and Q&A, reactions, and sentiment analysis.

This feature requires the following to be enabled:

- [Chat & Collaboration module](#)
- [Theming module](#) with the 'mediaedit' feature set to 'Yes'

Who can use this

- Media owners
- Co-editors

Access the Interactions tab

1. From the user menu, select [My Media](#).

The 'My Media' page displays.

2. Click the **three dots** to the right of the desired media and select **Edit**.
