

Combine saved clips into playlists and videos in Content Lab

Last Modified on 08/07/2026 4:36 pm IDT

 This article is designated for all users.

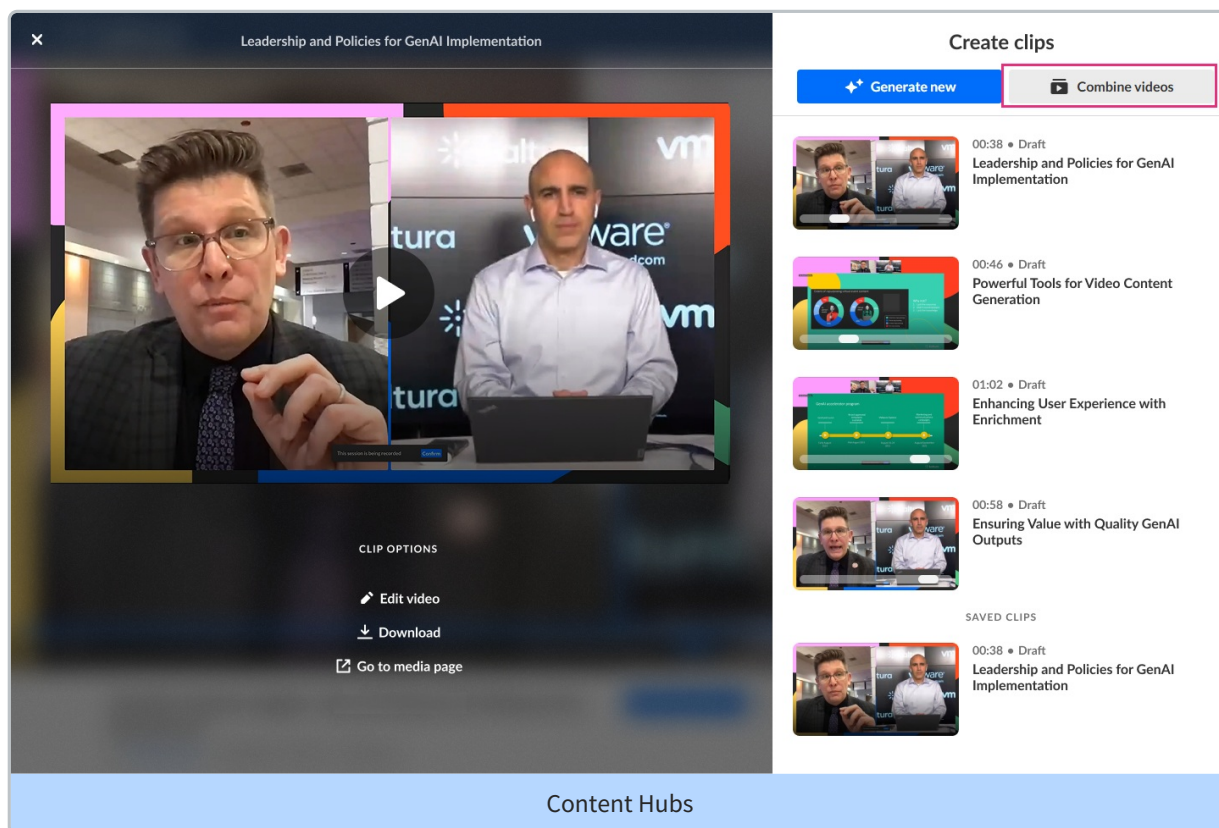

About

After saving clips in Content Lab, you can combine them into playlists or stitched videos. You can also edit, share, download, or open the saved assets in your Kaltura application.

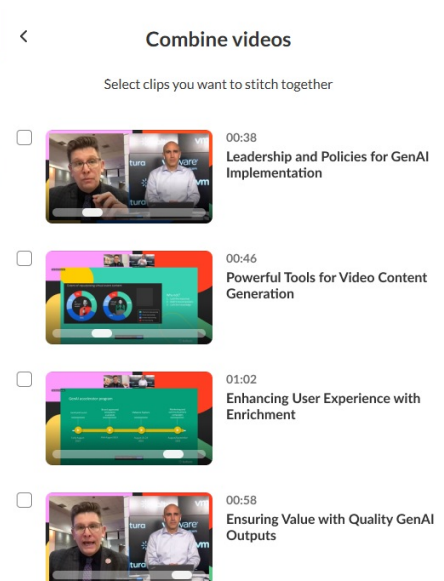

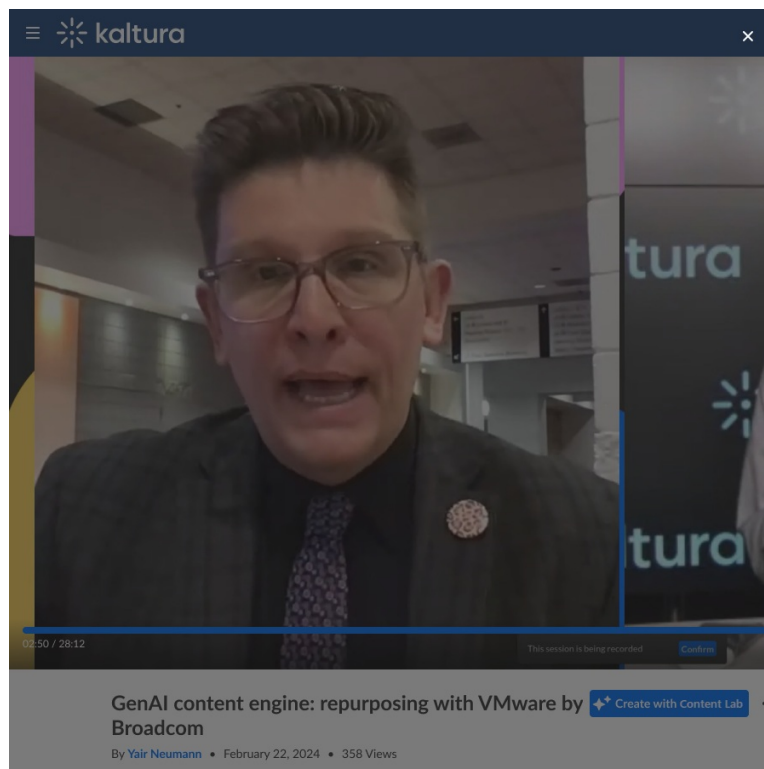

If you haven't created clips yet, see [Create clips with AI in Content Lab](#).

Combine clips into playlists and videos

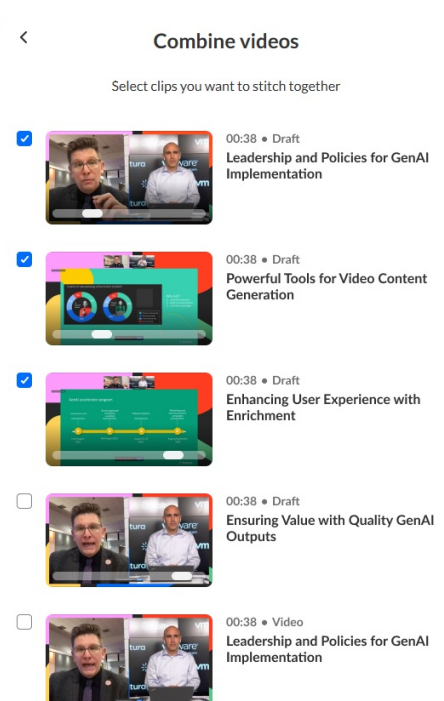

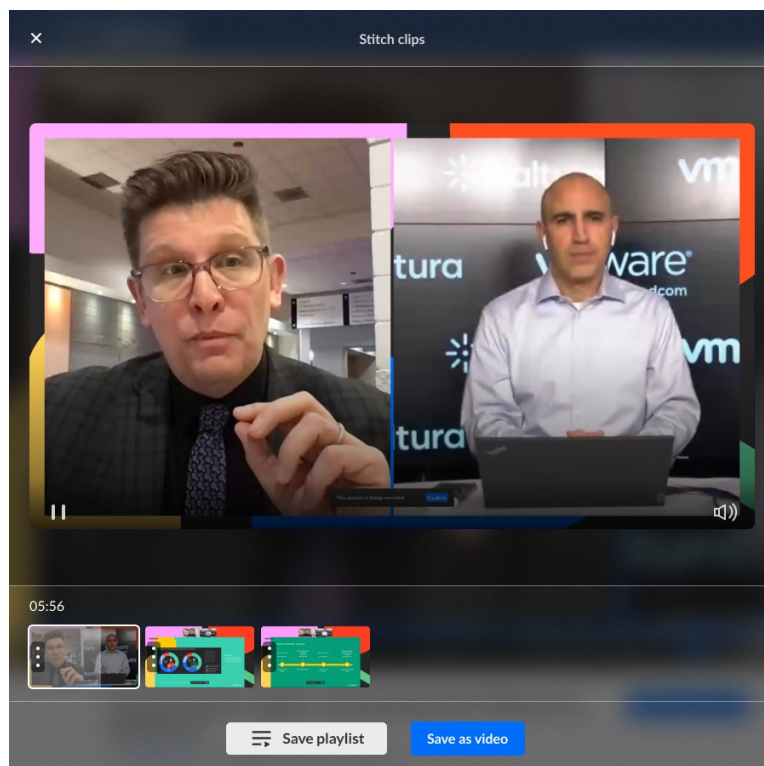

1. Open **Content Lab**. For instructions, see [Access Content Lab in your Kaltura application](#).
2. Click **Clips**.
3. Click the **Combine videos** button.

The Combine videos screen displays.

4. Select the clips you want to combine.

The selected clips are added to the bottom panel in the order you select them. The total duration of the combined clips is displayed above the panel.

- To preview a selected clip, click it in the bottom panel.

- To change the order of the clips, drag the handle on the left side of a clip to the desired position.

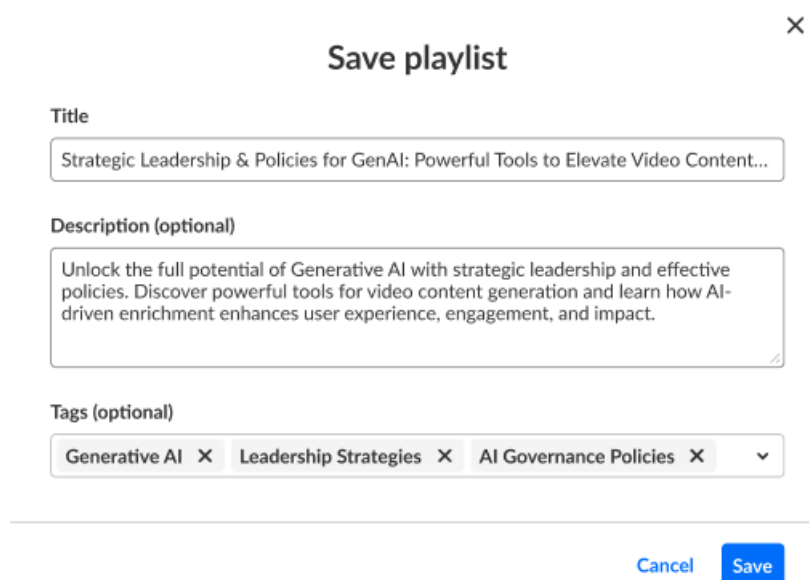

Save a playlist

Saving a playlist is currently supported in Content Lab for Rich Media CMS, legacy Video Portal, and LMS Video.

1. Click **Save playlist**.

The Save playlist screen displays.

Save playlist ✕

Title

Strategic Leadership & Policies for GenAI: Powerful Tools to Elevate Video Content...

Description (optional)

Unlock the full potential of Generative AI with strategic leadership and effective policies. Discover powerful tools for video content generation and learn how AI-driven enrichment enhances user experience, engagement, and impact.

Tags (optional)

Generative AI ✕ Leadership Strategies ✕ AI Governance Policies ✕ ▼

Cancel Save

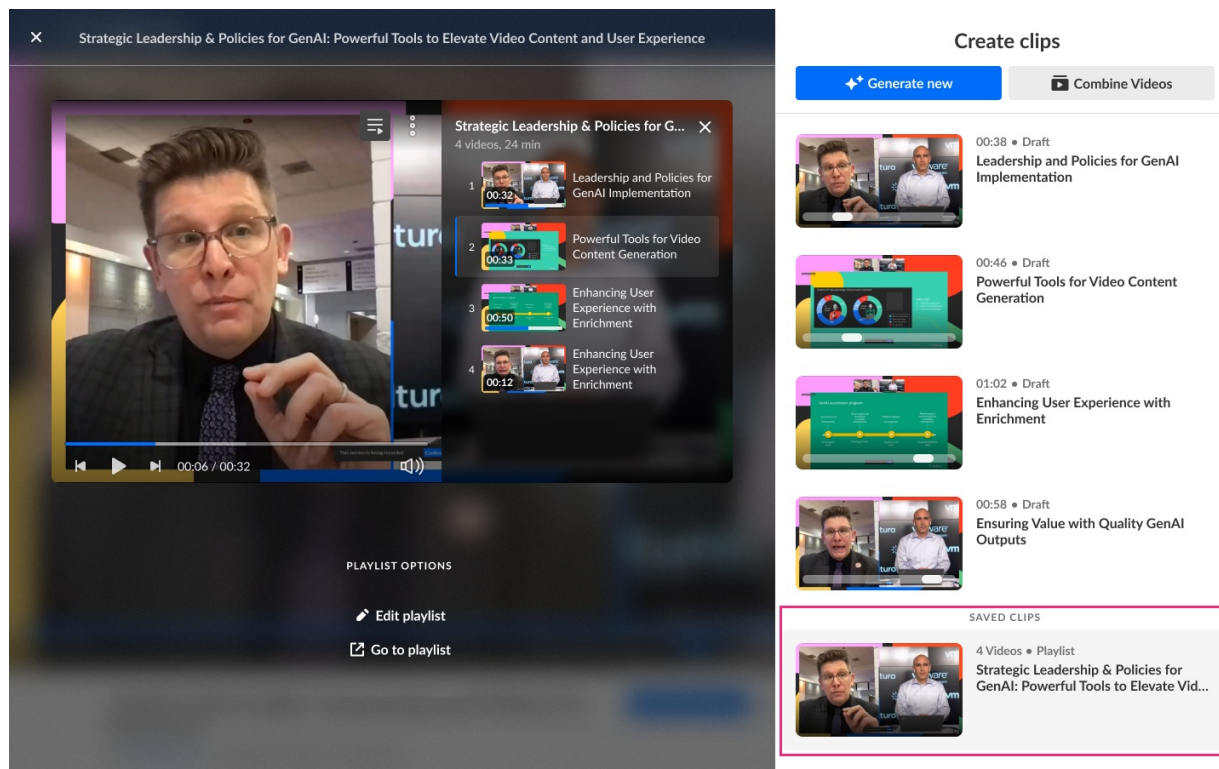

2. Review or edit the suggested title, description, and tags*.

*Tags are currently available only in Content Lab for Rich Media CMS and legacy Video Portal.

3. Click **Save**.

The playlist is added to your **Saved Clips** list.

Save a stitched video

1. Click **Save as video**.

The Save a single video screen displays.

Options

☐ Embedded captions in video
 ☐ Create chapters & summary
 ☒ Add transition between clips

Cancel

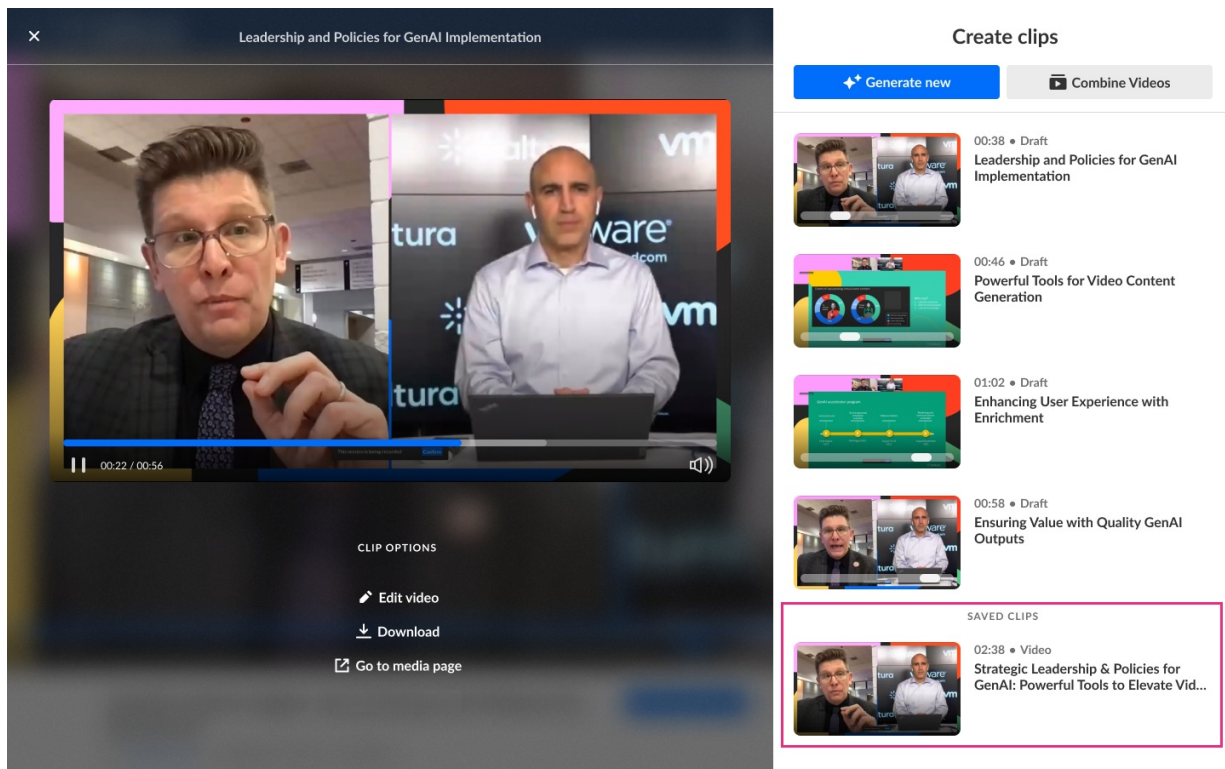

Save

2. Review or edit the suggested title, description, and tags*.

Configure any of the following options as needed:

- **Embed captions in video** – Embed captions into the video. If multiple caption files are available, select the caption file to use.
 - **Create chapters & summary** – Create chapters and a summary for the stitched video. Each selected clip becomes a chapter using its original title and description.
 - **Add transition between clips** – Add transitions between clips.
3. Click **Save**.

The stitched video is added to your **Saved Clips** list.

After you save a playlist or video

After you save a playlist or stitched video, additional options are available. Select a playlist or stitched video from **Saved Clips** to view the available actions.

The available options depend on the Kaltura application you're using, as follows:

Playlists

Application	Available options
-------------	-------------------

Application	Available options
Rich Media CMS	Edit playlist, Share & Embed, Go to playlist
Content Hubs / legacy Video Portal	Edit playlist, Go to playlist
LMS Rich Media Extensions / LMS Video	Edit playlist, Go to playlist

Stitched videos

Application	Available options
Rich Media CMS	Share & Embed, Download, Go to entry
Content Hubs / legacy Video Portal	Edit video, Download, Go to media page
Kaltura Virtual Events	Download, Go to media page
LMS Rich Media Extensions / LMS Video	Edit video, Download, Go to media page
