This article is designated for all users.

About

You can upload and manage alternative audio tracks for media that you own or have permission to edit. These can include dubbed or alternate-language audio and recorded audio descriptions (AD).

Uploaded audio tracks are available to viewers through the player's audio selector.

This feature requires the following to be enabled:

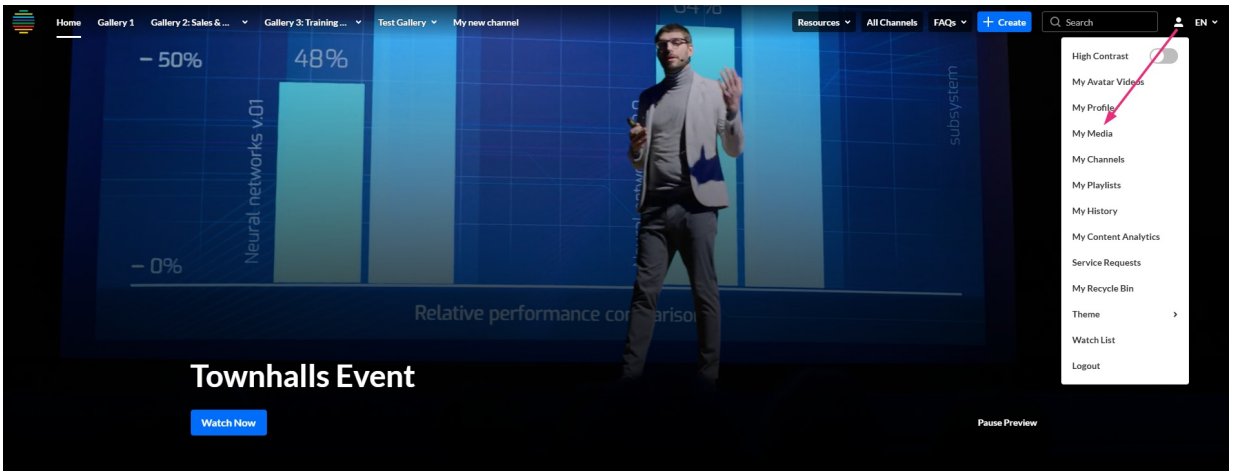

- Audiotracks module
- Theming module with the 'mediaedit' feature set to 'Yes'

Who can use this

- Media owners
- Co-editors (depending on permissions)

Access the Accessibility tab

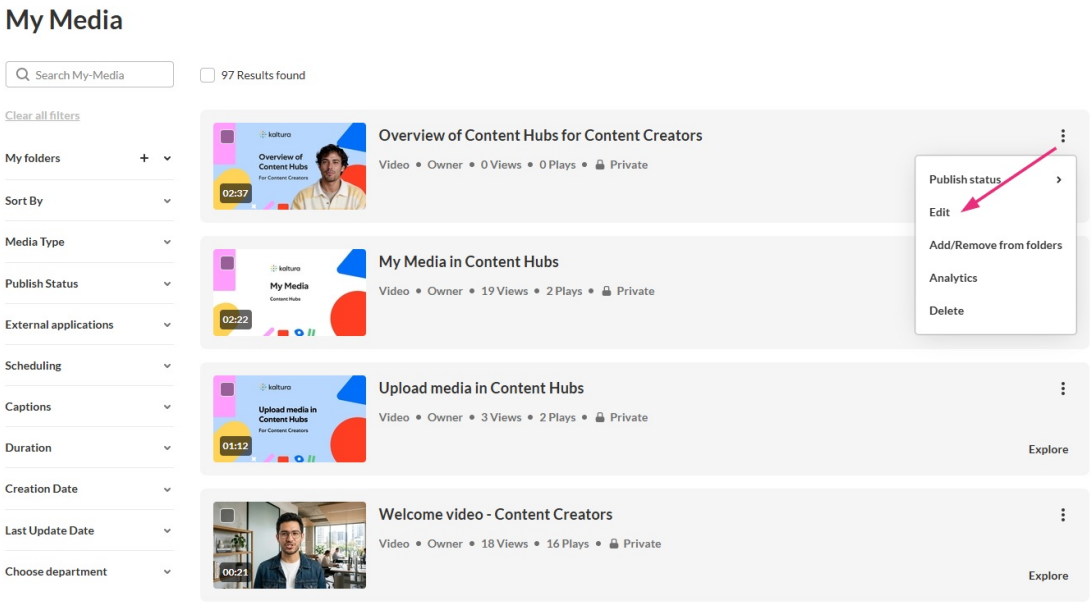

1. Select My Media from the user menu.

The My Media page displays.

2. Click the **three dots** to the right of the desired media and select **Edit**.

Alternatively, you can access the edit page from the media page by clicking the **three-dot menu** and selecting **Edit**.

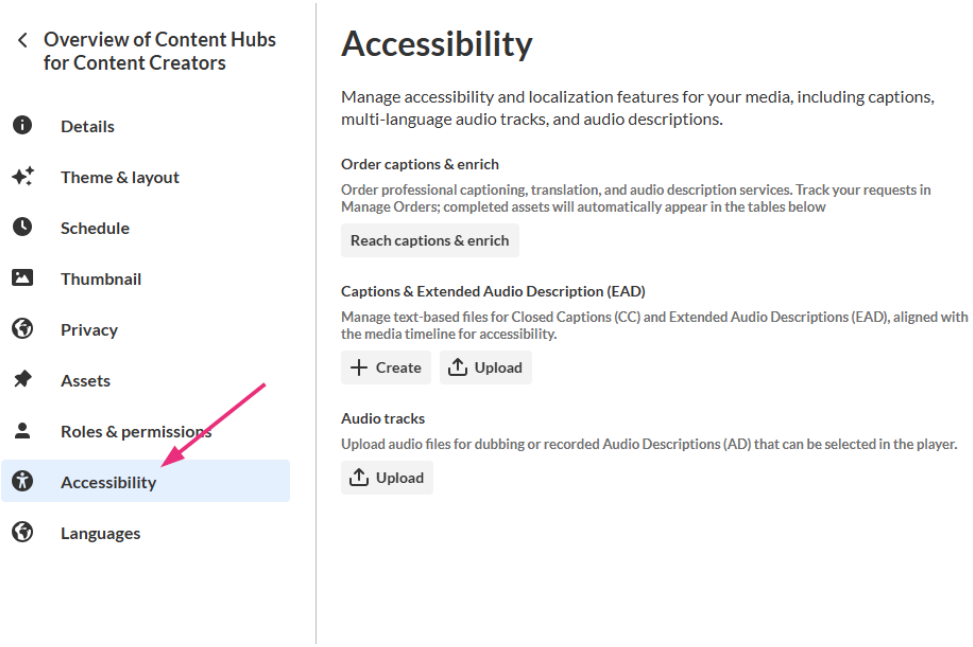

The edit page opens on the **Details** tab by default, with a left-hand navigation.

3. In the left navigation, click the **Accessibility** tab to display the Accessibility page.

Upload audio files

Always upload the video's original audio track along with any dubbed or audio description tracks. The player needs the original track to display audio options and let viewers switch between them.

If you don't have the original audio as a standalone file, contact your Kaltura

administrator. Administrators can generate the original audio track from the source video in the Rich Media CMS. For instructions: Manage flavors in Rich Media CMS.

Audio description

Audio description tracks must be in MP4 format.

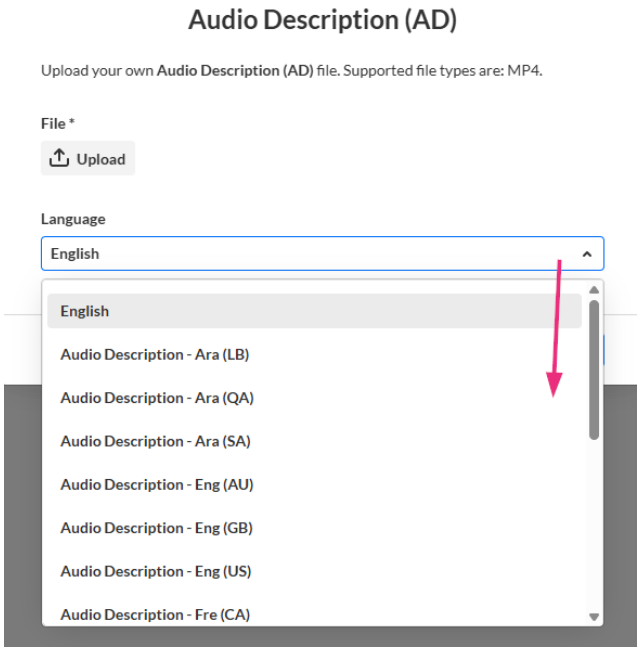

1. In the **Audio tracks** section, click **Upload** and select **Audio Description (AD)**.

   The Audio Description (AD) window opens.

2. Click **Upload** and select an MP4 file from your device.
3. Select the appropriate language from the **Language** dropdown.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

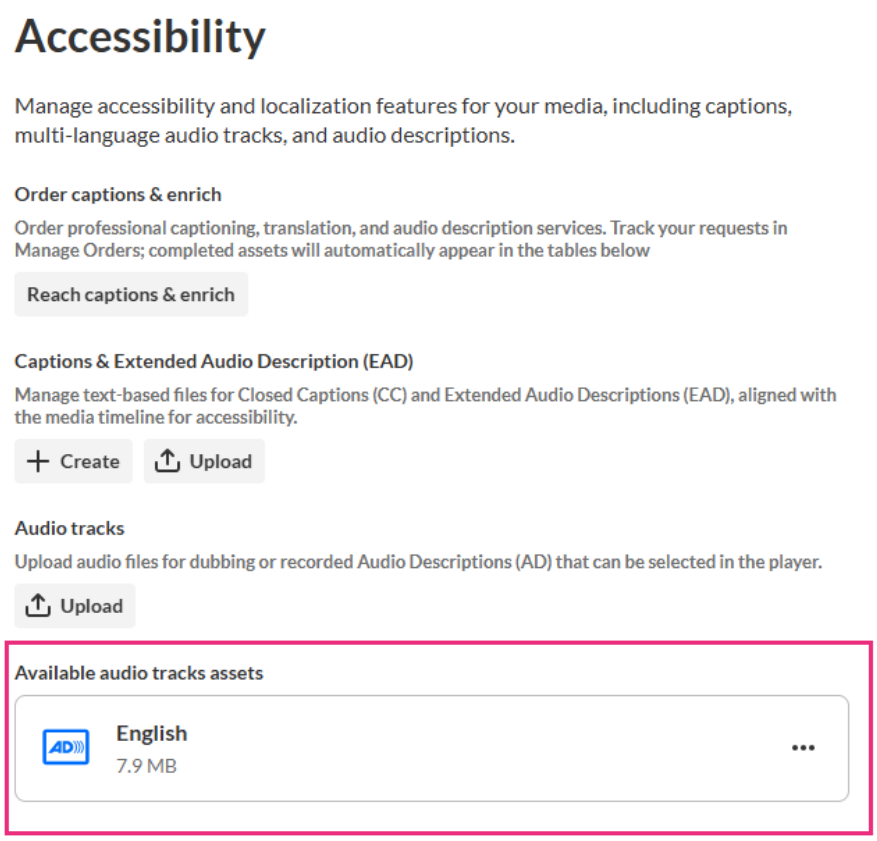

4. Click **Add**.

The audio description track appears in the **Available audio tracks assets** section and is automatically available in the player's audio selector.

To upload another file, click **Upload** again and repeat these steps.

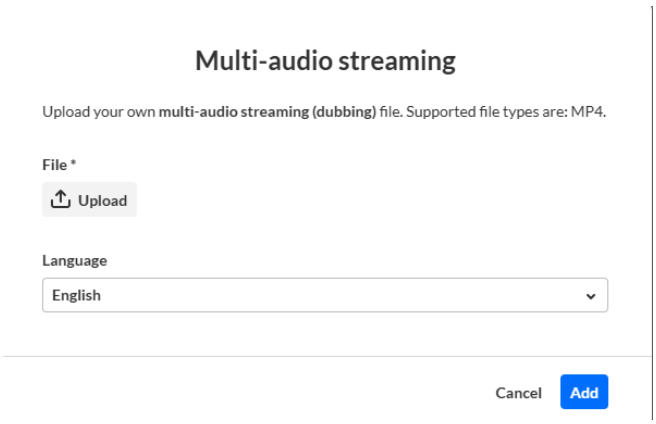

Dubbing or language track

1. In the **Audio tracks** section, click **Upload** and select **Dubbing / language track**.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

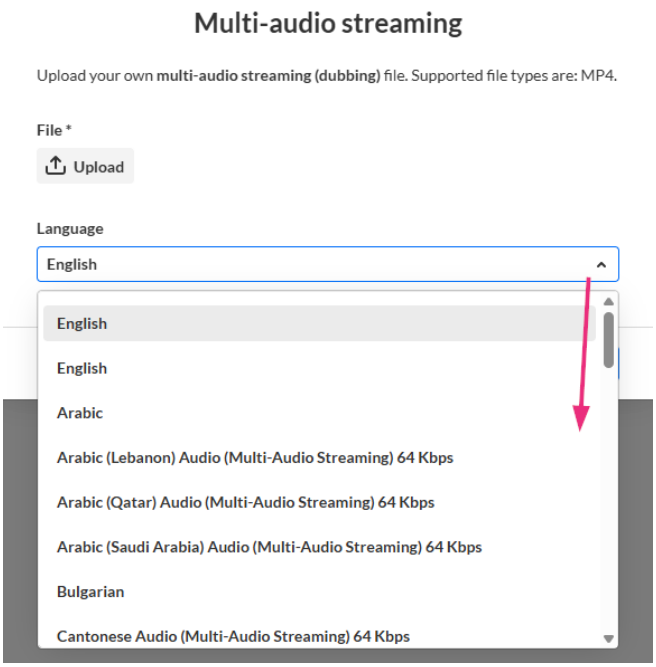

The Multi-audio streaming window displays.

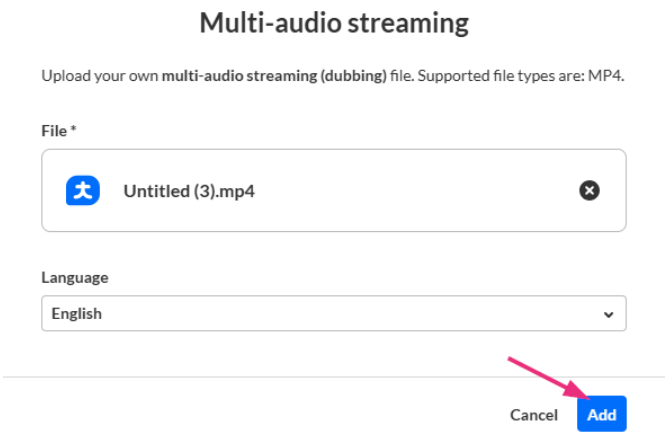

2. Click **Upload** and select an MP4 file from your device.
3. Select the appropriate language from the **Language** dropdown.

4. Click **Add**.

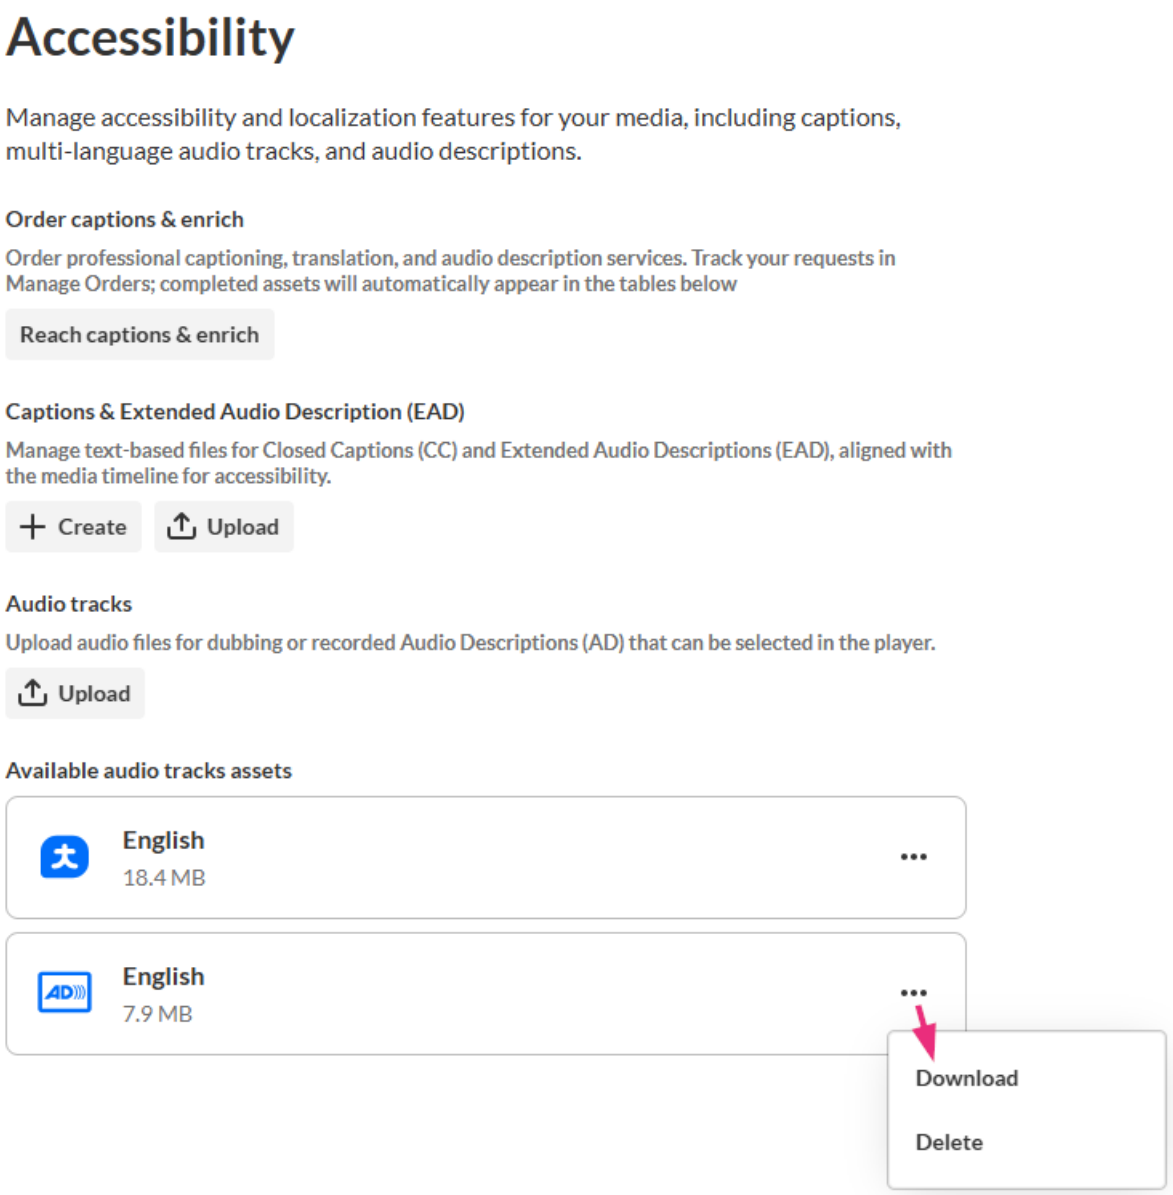

Manage audio files

Uploaded audio tracks are listed under **Available audio tracks assets**.

Each track has an icon that identifies its type, so you can distinguish between audio description and dubbing or language tracks.

Click the **three dots** on an audio track to access its management options.

Download an audio file

1. Click the **three dots** on the audio track you want to download.
2. Select **Download**.
   The audio track downloads to your device.

Delete an audio file

1. Click the **three dots** on the audio track you want to delete.
2. Select **Delete**.
   A confirmation message displays.
3. Click **Delete** to confirm.
