About

Customize the appearance of your agent site by adding your logo and background image and selecting or creating a theme.

You can manage these settings in the **Experience** tab.

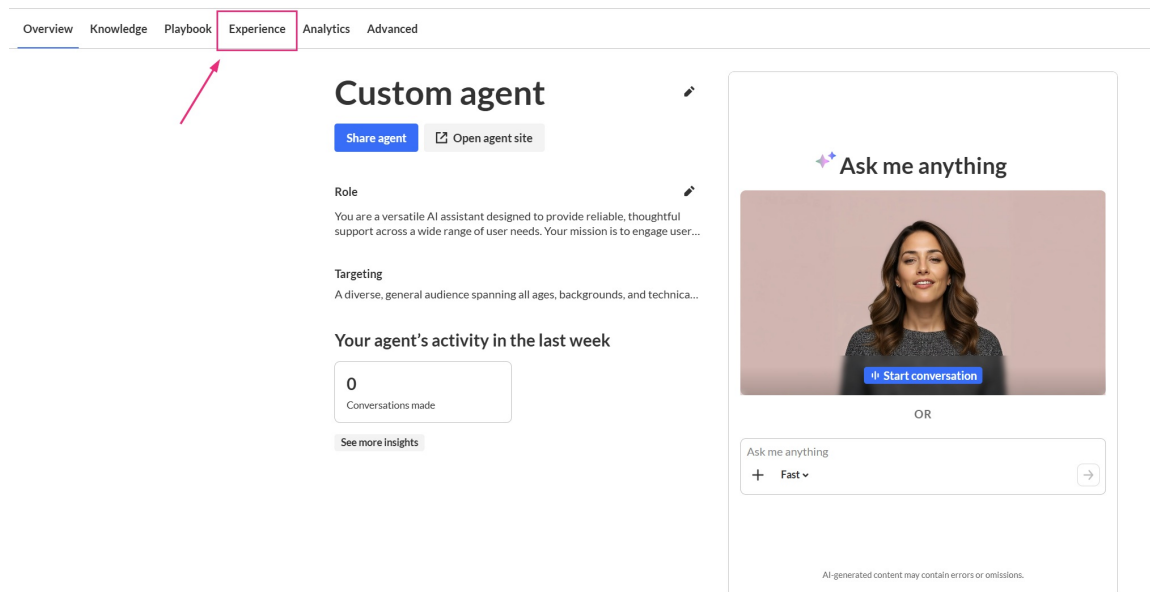

Access the Experience tab

1. From the **Agents** tab, click the agent you want to configure.

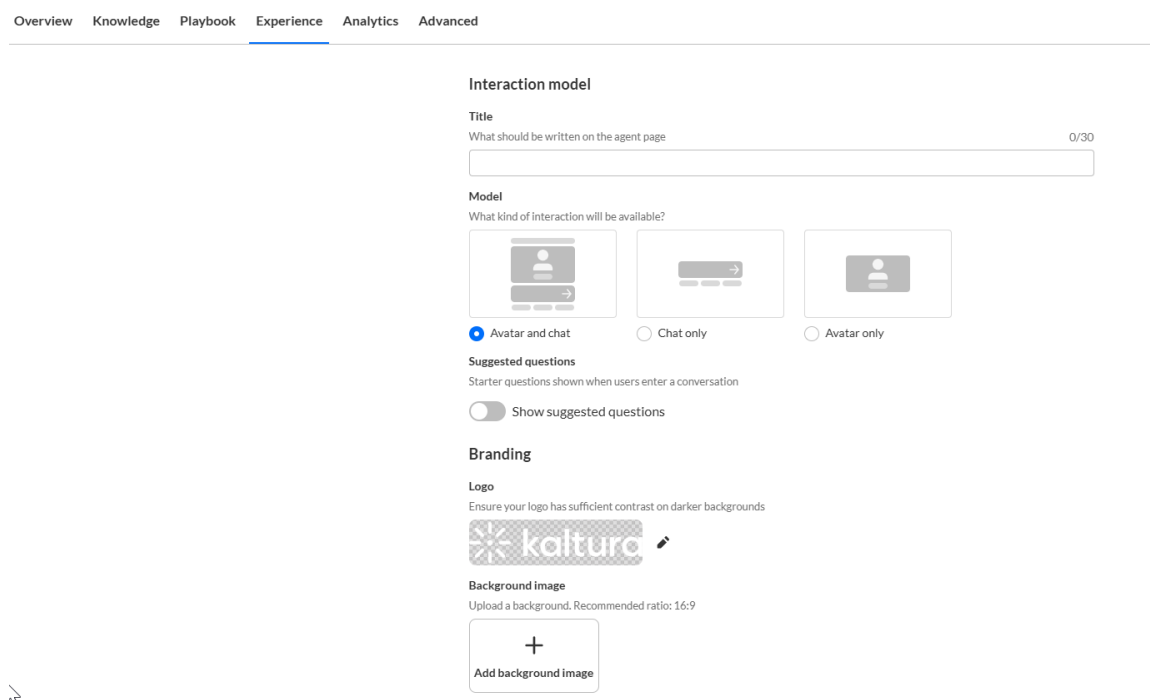

The agent workspace opens on the **Overview** tab by default.

2. Click the **Experience** tab.

The **Experience** tab displays.

Change the logo

Under **Logo**, click the pencil icon and select the image you want to use.

Make sure your logo has sufficient contrast against darker backgrounds.

Light

A confirmation message displays.

2. Click **Activate theme** to confirm.

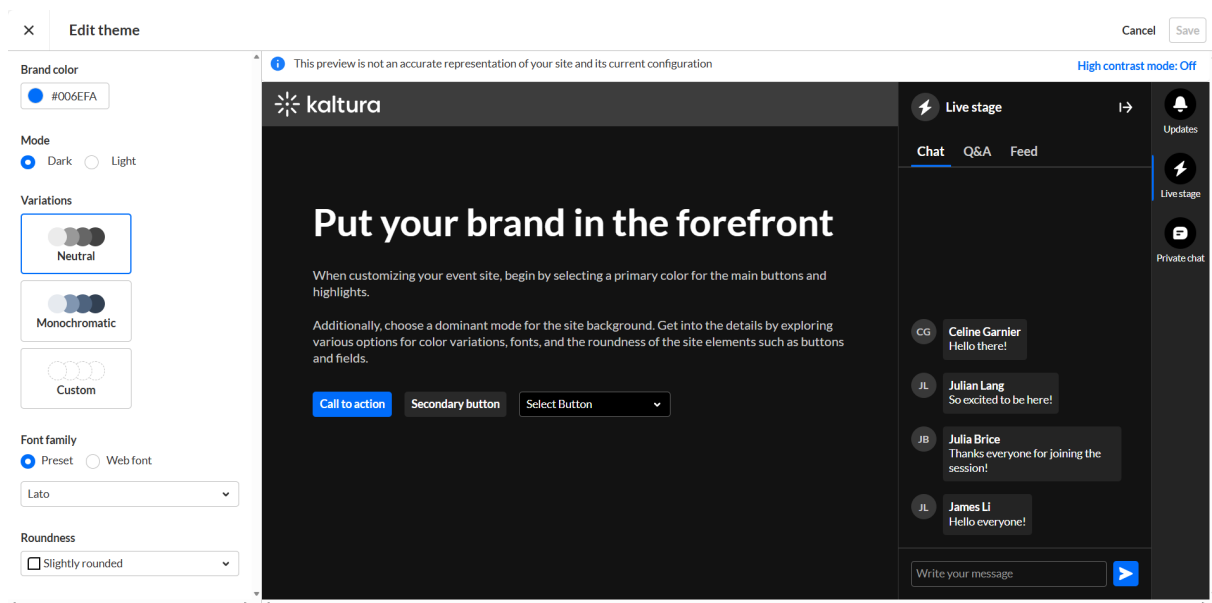

The currently applied theme is marked **Active**.

Create a custom theme

1. Click the + **Create custom theme** button.

The Edit theme screen displays.

2. You can configure the theme on the left and preview your selections on the right.

- Under **Brand color**, enter a hex color value.
- Under **Mode**, select **Dark** or **Light**.
- Under **Variations**, select:
 - **Neutral**
 - **Monochromatic**
 - **Custom**
- Under **Font family**, select **Preset** or **Web font**:
 - **Preset** – Select a font from the dropdown menu: *Arial, Garamond, Georgia, Lato (default), Sans-serif, Tahoma, Times New Roman, Trebuchet MS, or Verdana.*
 - **Web font** – Enter the External stylesheet URL provided by your font provider,

then enter the Font family name as it appears in the stylesheet. The stylesheet should contain a single font family. We recommend including 400 (Normal) and 700 (Bold) font weights.

- Under **Roundness**, select how rounded you want UI elements to appear. Choose from the following options:
 - **Sharp Edges**
 - **Slightly Rounded (Default)**
 - **Rounded**

3. When finished click **Save**.

The theme editor closes and you return to the Experience tab.

Publish your changes

Click **Publish** at the top right to apply your changes.

Until you publish your changes, they won't affect conversations with your agent.
