 This article is designated for all users.

About

After creating an interactive video, you can reopen the video composer from the media page to continue working on its media, nodes, paths, and hotspots.

Access the media page

1. Select **My Media** from your user menu.

The My Media page displays.

2. Click the desired entry's thumbnail or title.

My Media

Choose department [Global ops](#)

0

4. From the drop-down menu, select **Edit Interactive Video**.

The video composer opens.

Edit your interactive video

In the video composer, you can:

- Add or remove media from the project
- Add, rename, or remove nodes
- Connect nodes to create paths
- Add or edit hotspots
- Preview the interactive experience using click-through mode

For detailed instructions, see [Create an interactive video in Content Hubs](#) and [Add hotspots to interactive videos](#).
