 This article is designated for all users.

About

Create a custom avatar using your own image and voice. Your custom avatars are saved to **My avatars**, so you can use them in your avatar video projects.

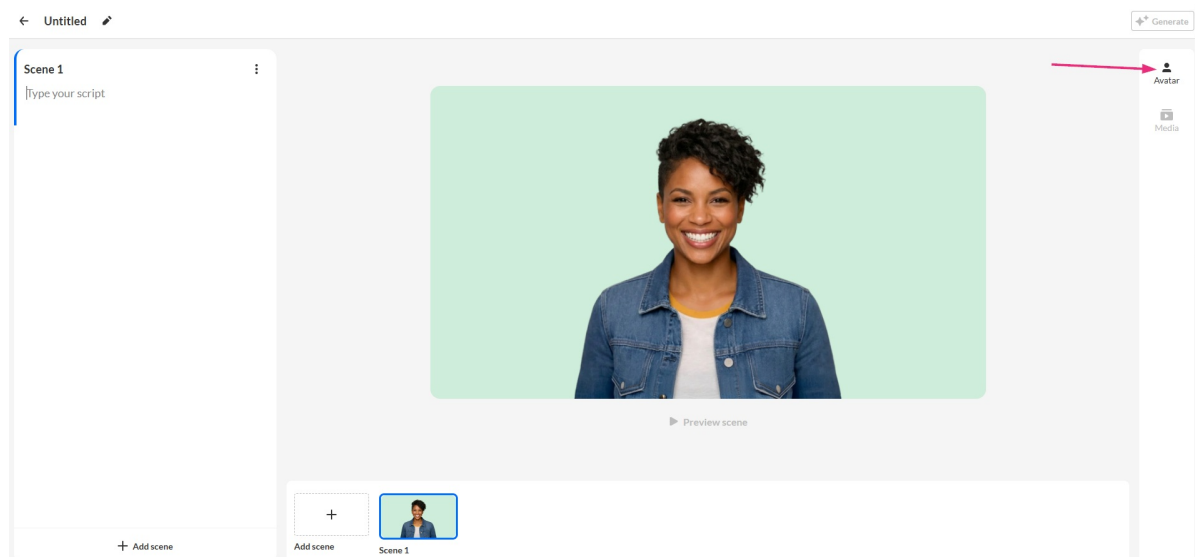

This article assumes you already have a project open in the **Avatar Video Studio editor**. If you don't have a project open, see [Introduction to Avatar Videos](#) to learn how to access Avatar Video Studio and create or open a project.

- Custom avatars are specific to your user and aren't shared with other users on your account.
- Custom avatars can't be edited after they're created.

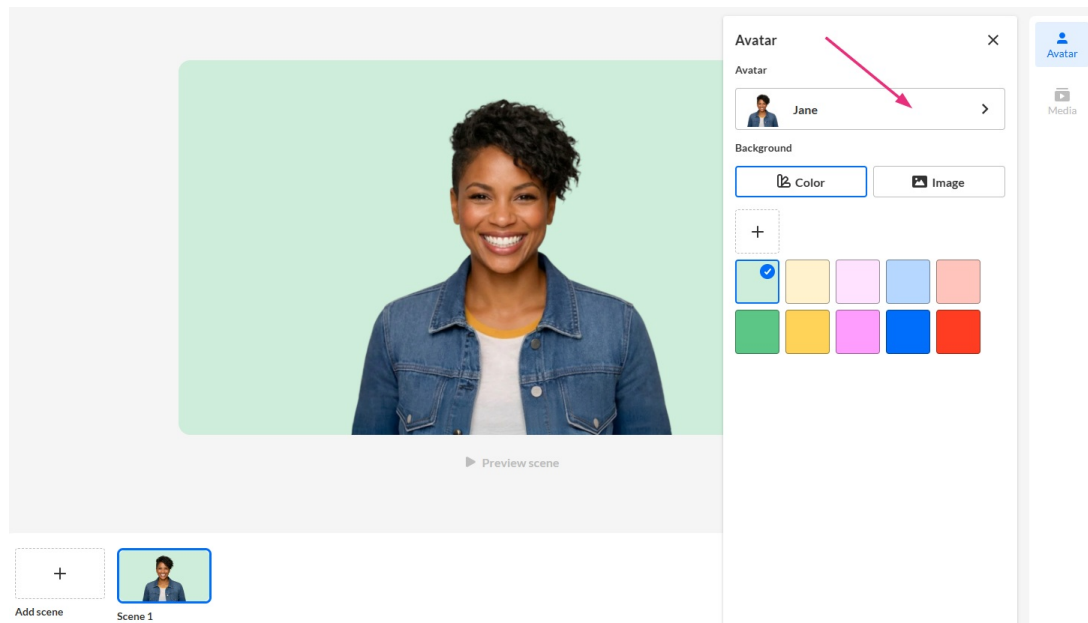

Open the custom avatar wizard

1. In the editor, click **Avatar in** the right panel.

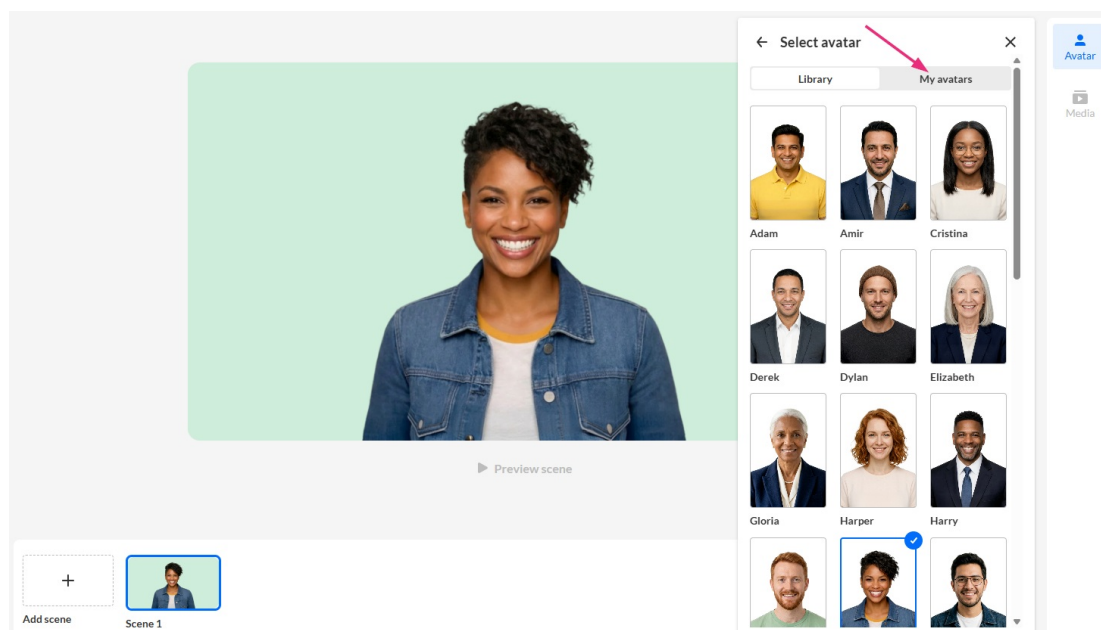

The Avatar panel opens.

2. Click the current avatar.

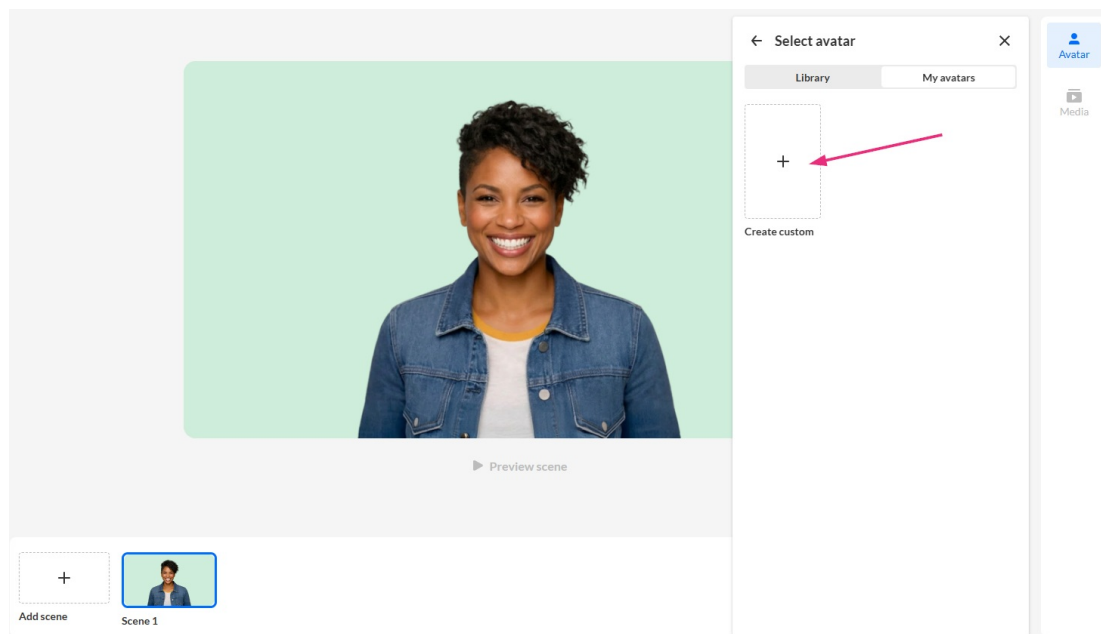

The **Select avatar** panel opens with the **Library** tab displayed.

3. Click the **My avatars** tab.

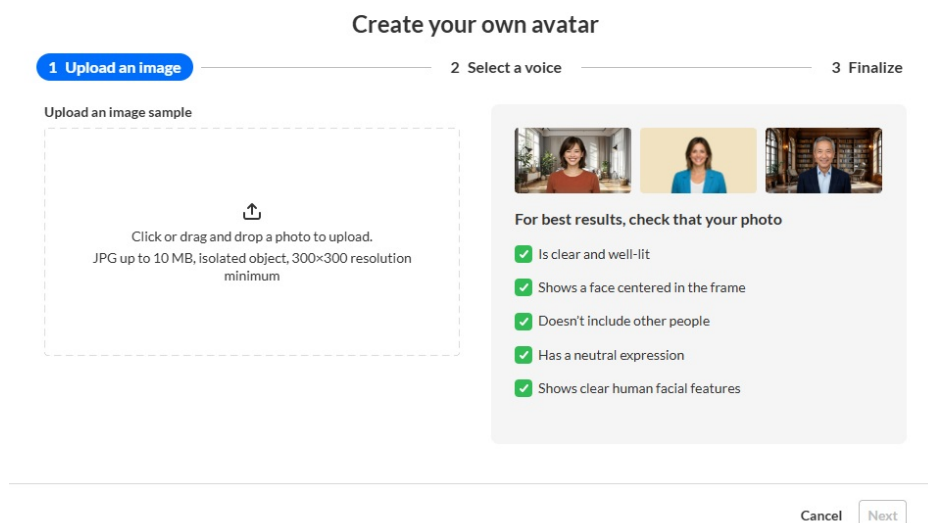

The **My avatars** tab opens.

4. Click **Create custom**.

The **Create your own avatar** wizard opens.
