 This article is designated for moderators

About

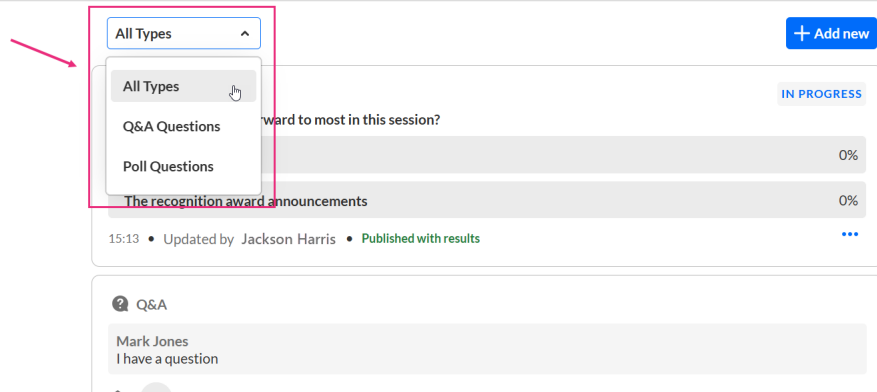

The **Feed** tab is the moderator's workspace for managing attendee-facing content. From the **Feed** tab, moderators can publish and manage Q&As and polls, filter content, and control whether items appear in the Stage Monitor (if configured). Published items appear both as temporary attendee notifications and as permanent Feed entries.

The screenshot displays the Moderator app interface. At the top, there's a 'Moderator view' header with tabs for 'Live stages' and 'Private messages'. Below this, a breadcrumb trail shows 'Video Experience Delivery Session'. On the right, there are status indicators: 'Pending (2)', 'Assigned to me (1)', and 'Feed' (which is the active tab). A dropdown menu labeled 'All Types' is visible, along with a '+ Add new' button. The main content area shows two items: a 'Poll question' titled 'What are you looking forward to most in this session?' with two options, 'The CEO's update' and 'The recognition award announcements', both at 0% completion. Below the poll, it says '15:13 • Updated by Jackson Harris • Published with results'. The second item is a 'Q&A' entry from Mark Jones asking 'I have a question', with a response from Jackson Harris saying 'I have an answer'. It is dated '14:52' and marked as 'Published'.

Filter Feed content

Select the **All Types** menu and choose an engagement type to limit the displayed results. Filtering allows moderators to focus on specific content categories.

The screenshot shows the 'Moderator view' interface. At the top, there are tabs for 'Live stages' and 'Private messages'. Below these, there's a breadcrumb trail '< Video Experience Delivery Session' and a user profile 'JH'. On the right, there are counts for 'Pending (2)', 'Assigned to me (1)', and 'Feed'. The main content area shows a list of feed items. A red box highlights the 'All Types' dropdown menu, which is open, showing options: 'All Types', 'Q&A Questions', and 'Poll Questions'. A red arrow points to the 'All Types' dropdown. The first item in the list is 'ward to most in this session?' with a status of 'IN PROGRESS'. The second item is 'The recognition award announcements' with a status of '0%'. The third item is '15:13 • Updated by Jackson Harris • Published with results' with a status of '0%'. Below the list, there's a 'Q&A' section with a question from 'Mark Jones: I have a question'.

Manage Feed items

From the Feed tab, moderators can create, edit, publish, unpublish, and track both Q&As and polls. They can also push content to the Stage Monitor or remove content from it (if configured).
