

Use the Stage Monitor with the Moderator App

Content updated: 09/10/2026

 This article is designated for moderators

About

If configured on your account, the Stage Monitor provides speakers with a dedicated display of selected Q&As and polls. Moderators use the Stage Monitor tab to manage which content speakers see and in what order it appears.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

In order for the Stage Monitor tab to be visible, **Thread on Air (TOA)** must be enabled in C&C Admin. In order for polls to be visible, the **enablePolls** must be enabled in the C&C Admin.

Access the Stage Monitor

Select **Stage monitor** to open the Stage Monitor console. The console displays Q&As and polls that moderators have pushed to the speaker view. Speakers see updates in real time as moderators add, remove, edit, or reorder content. Poll results refresh automatically while polling remains active.

Share the Stage Monitor with speakers

Moderators can select **Copy link** to share access to the Stage Monitor console. Speakers must have moderator permissions to access the console.

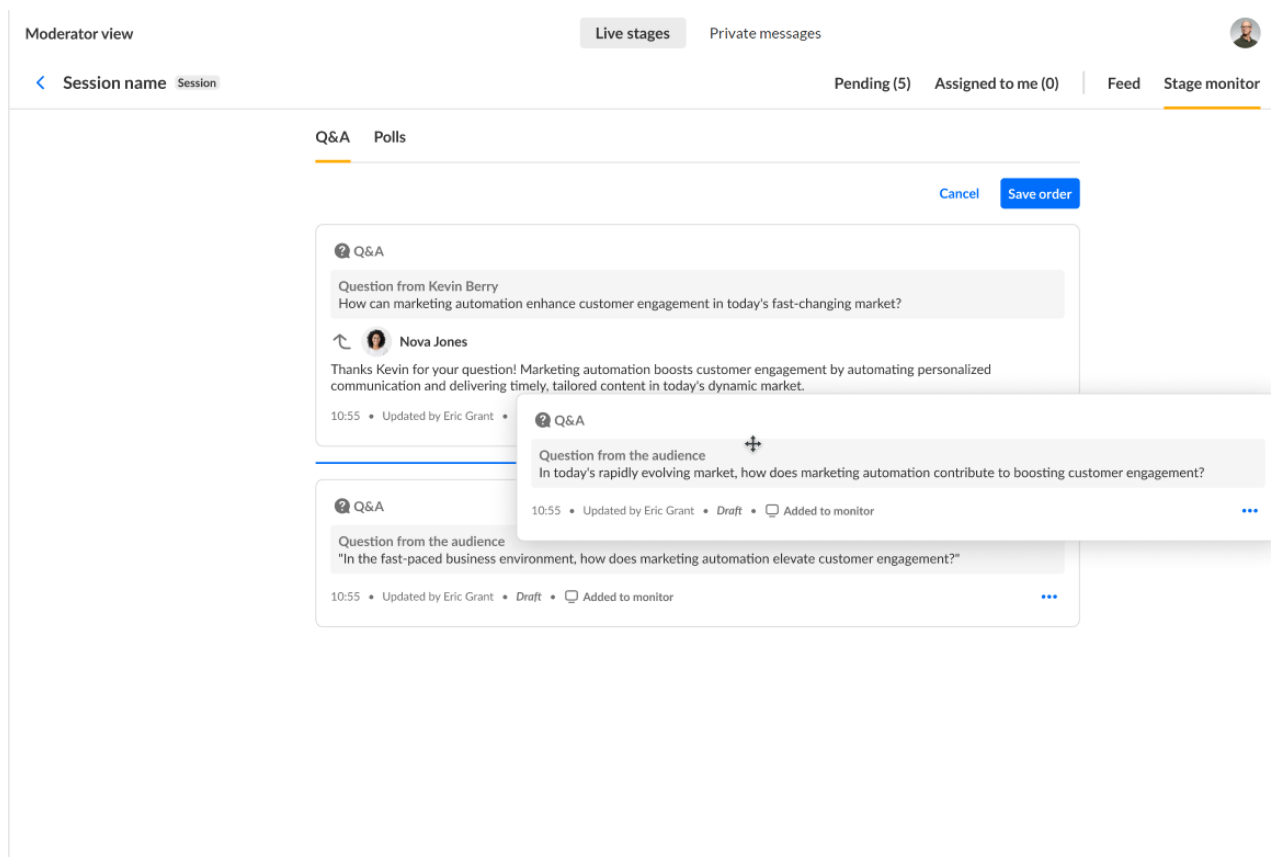

Note - The speaker must have moderator permissions to access this window.

View Q&As and polls

The Stage Monitor contains separate Q&A and Poll tabs. Each tab displays only items that have been added to the monitor.

Change display order

Moderators can select Change order, drag and drop content into a new sequence, and save the updated order. The speaker view reflects those changes.

The screenshot shows the 'Moderator view' of the 'Stage monitor' tab. At the top, there are tabs for 'Live stages' and 'Private messages'. Below these are navigation links: 'Session name', 'Session', 'Pending (5)', 'Assigned to me (0)', 'Feed', and 'Stage monitor' (which is highlighted). The main content area is divided into 'Q&A' and 'Polls' sections. The 'Q&A' section is active, showing a list of questions. A modal window is open, allowing a user to drag a question from the audience into the list. The question being added is: 'Question from the audience: In today's rapidly evolving market, how does marketing automation contribute to boosting customer engagement?'. The modal also shows the time '10:55', the user 'Updated by Eric Grant', and the status 'Draft' and 'Added to monitor'. The list of questions includes: 'Question from Kevin Berry: How can marketing automation enhance customer engagement in today's fast-changing market?' and 'Question from the audience: In today's rapidly evolving market, how does marketing automation contribute to boosting customer engagement?'. The bottom of the list shows '10:55 • Updated by Eric Grant • Draft • Added to monitor'.

Edit Stage Monitor content

Moderators can edit Q&As and polls directly from the Stage Monitor tab. Changes can then be saved or republished.
