

Supported browsers and devices for the Content Hubs app

Content updated: 09/30/2026

 This article is designated for all users.

About

You can [install your organization's Content Hubs site as an app](#) only in the browsers listed below. In other browsers, you can still use the site as usual.

Supported browsers and devices

Device	Supported browsers
iPhone or iPad	Safari on iOS or iPadOS 16.4 and later
Android phone or tablet	• Chrome 80 and later • Edge 80 and later • Samsung Internet 12 and later • Opera
Windows or Mac computer	• Chrome 80 and later • Edge 80 and later
Mac computer	Safari on macOS Sonoma 14 and later

If your browser isn't supported

If you open your site in a browser that can't install the app, the **Incompatible browser** popup opens. Select **Copy link** and paste the link into a supported browser. On an iPhone or iPad, use Safari.

Installing the app doesn't work in a private or incognito window.

For installation steps, see [Install Content Hubs as an app on your device](#).
