Simple Login - Admin Guide

Content updated: 10/14/2026

This article is designated for administrators.

About

The Simple Login module allows users to login using only email, with no verification (password, magic link, etc.). The sections herein will guide you through enabling and configuring the Simple Login module.

This module is only applicable for Content Hubs users.

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Prerequisite

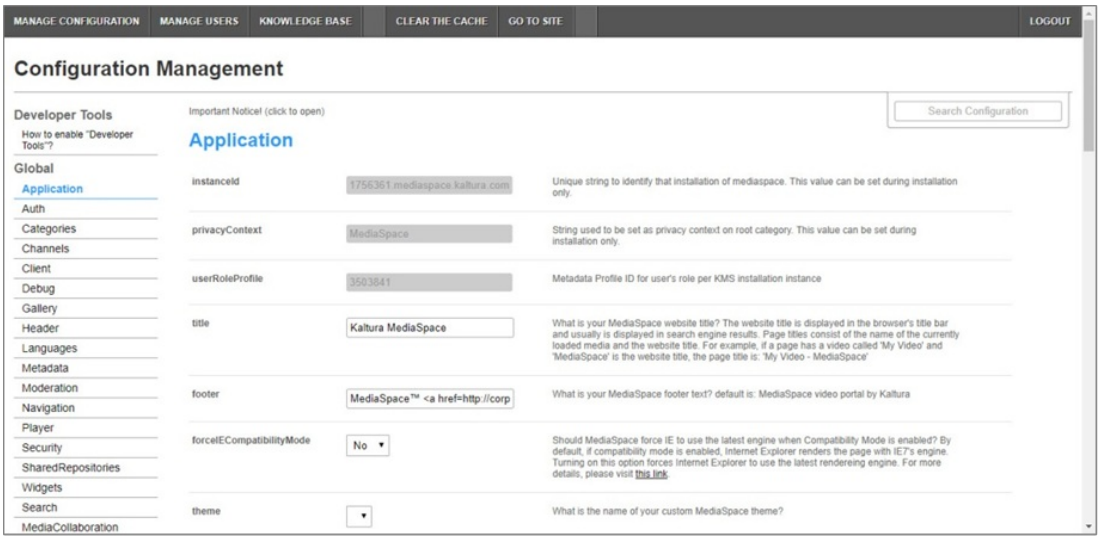

This module relies on several other modules being enabled and configured, including;

- Theming
- Event Platform Core
- Kwebcast

Configure

1. Access your Configuration Management console.

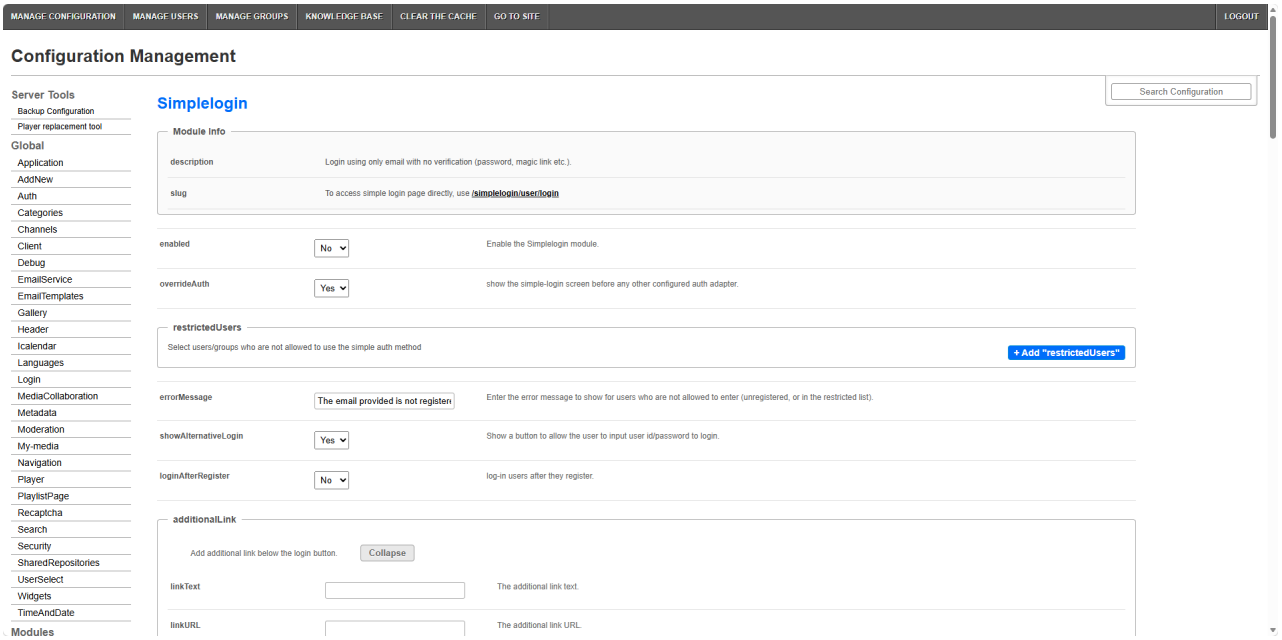

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

4. In the list of configurable items on the left of your screen, locate and click on simplelogin.

>
> The simplelogin item will be crossed out because it is disabled by default.

The simplelogin window displays.

The **Module Info** box displays the module name, description (what enabling this module allows users to do), and version number.

5. In the enabled pull-down list, select **Yes** to enable the simplelogin module.

Other configurable items following the enabled pull-down list are as follows.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

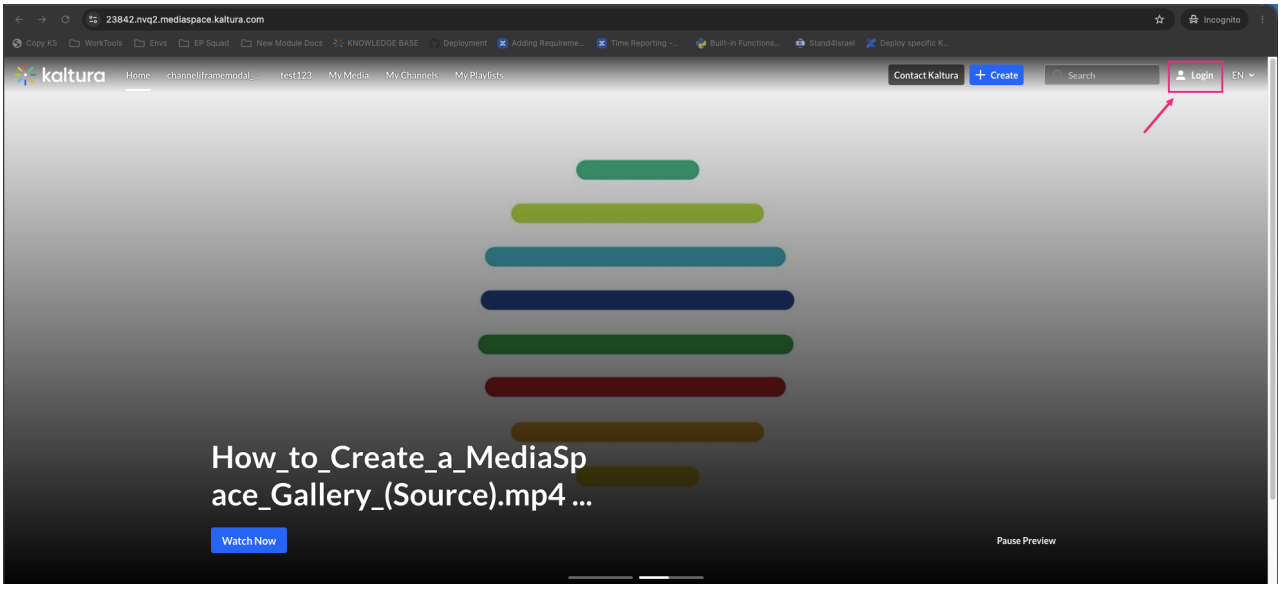

Configuration Name	Options	Description
overrideAuth	Yes or No	Show the simple-login screen before any other configured auth adapter.
restrictedUsers		Click **+ Add "restrictedUsers"** and select users/groups who are not allowed to use the simple auth method.
errorMessage	Free text	Enter the error message to show for users who are not allowed to enter (unregistered, or in the restricted list).
showAlternativeLogin	Yes or No	Show a button to allow the user to input user id/password to login.
LoginAfterRegister	Yes or No	Log-in users after they register.
additionalLink		Add an additional link below the login button.
linkText	Free text	The additional link text.
linkURL	Free text	The additional link URL.
newTab	New Tab or Same Tab	Should the link open in a new tab or the same tab?
postLoginEmailTemplate	List of available templates	Choose an email template to send users once they logged in using this method. Leave empty to not send any email post login.

6. Click **Save**. You receive a notice that your configuration for simplelogin was saved and the cache was cleared.

End user experience

Once enabled and configured, the user dropdown menu in the header is replaced with the **Login** button for anonymous users.
