We are committed to improving our documentation and your feedback is important to us.

Audience

This guide is intended for Jive administrators.

Document Conventions

Kaltura uses the following admonitions:

- Note
- Workflow

NOTE: Identifies important information that contains helpful suggestions.

Workflow: Provides workflow information.

1. Step 1
2. Step 2

Prerequisites

The following are prerequisites for the Kaltura Video Plugin for Jive:

- Kaltura Jive 6 or Jive 7
- A Kaltura Partner account
- A Kaltura Application Framework instance

Before Starting the Deployment Process

Contact your Kaltura representative to create a Kaltura Application Framework instance for your Kaltura Video Plugin for Jive.

You should receive the following:

- The launch point base URL that will be used further in the process.
- The Administration application login page URL.

Deployment Process Workflow

The following workflow describes the deployment process.

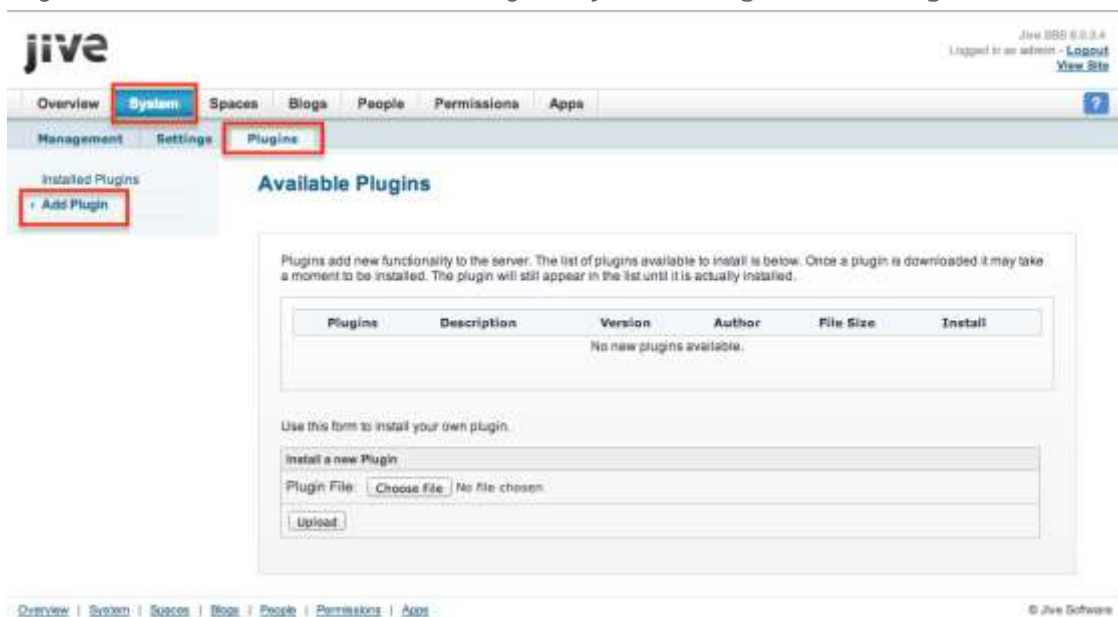

1. Install the Kaltura Video Plugin.
2. [Configure the Kaltura Video Plugin for Jive Settings.](#)

Deploying the Kaltura Video Plugin for Jive

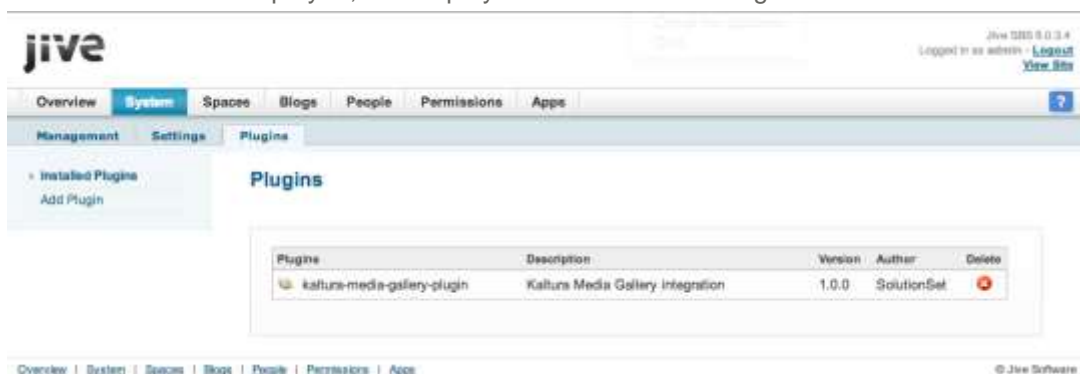

This section describes how to deploy and configure the Kaltura Video Plugin for Jive.

To deploy the Kaltura Video Plugin into your Jive environment

1. Download the Kaltura Video Plugin for Jive file. See corp.kaltura.com/Products/Video-Applications/Jive-Video-Plugin.
2. Login to Jive's Administrator Console and go to **System > Plugins > Add Plugin**.

3. Click on Choose File and browse to the Kaltura Video Plugin for Jive file that you downloaded.
4. Click Upload.
5. Restart your Jive application server.
6. After the JAR file is deployed, it is displayed under Installed Plugins.

7. After the plugin installation is complete, [configure the plugin system properties](#).

Configuring the Kaltura Video Plugin for Jive

The Kaltura Video Plugin for Jive stores settings in the Jive System Properties. Jive System Properties are name/value pairs that configure particular aspects of Jive.

To configure the Kaltura Video Plugin for Jive system properties

1. Login to Jive's Administrator Console and go to **System > Management > System Properties**.

2. Scroll down the property list to locate the **Add new property** section.

3. Enter the following Property Name and Property Value pairs and click on **Save Property** for each pair.

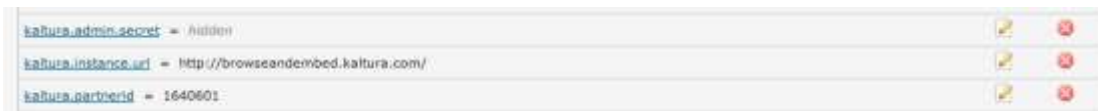

Property Name	Property Value / Description
kaltura.partnerid	Your Kaltura Partner ID. The partner ID can be obtained from your KMC, under Settings > Integration Settings. See To access the account info in the KMC .
kaltura.admin.secret	The admin secret of your Kaltura account. The secret can be obtained from your KMC, under Settings > Integration Settings. See To access the account info in the KMC .
kaltura.service.url	If a value is not specified it will default to https://www.kaltura.com .
kaltura.instance.url	The Kaltura Application Framework launch point. You can obtain this value from your Kaltura representative. If a value is not specified it will default to https://{kaltura.partner.id}.kaf.kaltura.com .

To edit the Kaltura Video Plugin for Jive system properties

1. Login to Jive's Administrator Console and go to **System > Management > System Properties**.

2. Scroll down the property list to **kaltura.*** properties

3. Click the **Edit** icon  to open the appropriate property.
4. Enter the **Property Value** and click **Save Property**.

5. Repeat for each one of the Kaltura properties.
